Comprehensive Plan for Development On Waterfront Bids Fair to Make Oakland Great Terminal On the Pacific

CITY WILL CONTROL DOCKS AND WHARVES

Railroad Interests and the City Unite in Building Piers in a "U" Formation Surrounding the Great 700-Foot Fairway

Entailing an ultimate expenditure of \$25,000,000 and the acquisition of seven additional miles of docks and wharves to the waterfront, co-ordinate plans for the development of the property between the Southern Pacific and the Western Pacific lines are being formulated by railroad officials.

These vast improvements are another evidence of the great industrial activity which confronts Oakland and other east bay cities. The shipbuilding program will unquestionably stimulate every other line of business and materially increase the necessity for additional dock and wharfage space. On every hand it is realized that speed is essential if Oakland is to derive the fullest benefit from the shipbuilding activities.

Commissioner F. F. Morse of the public works department today announced the plan following many conferences with John Q. Barlow, chief engineer, and E. E. Leavitt, industrial agent of the Southern Pacific Company. The tentative plans are now under way and only await the approval of the higher officials of the company and the completion of minor details, before they are ready to be submitted to the council with the entire proposition for the development.

At present the Southern Pacific is busily driving piles for the first units of the work to be undertaken by the company and which will handle the traffic which now goes over the Long Wharf when that watermark is removed late this year.

As for the city's share of the development, it is planned, according to Commissioner Morse, to do that by the unit when funds become available, but it is possible that some other scheme may be worked out later which will provide, in the near future, extensive dockage accommodation facing directly upon deep water.

The entire plan, which has been worked out by the city engineer, Kirby S. Heck, city harbor engineer, is declared by those who have followed the progress of the negotiations to be the most satisfactory and comprehensive that has yet been proposed in connection with harbor development.

Surrounding a great fairway 600 or 700 feet in width and extending back from the bulkhead line landward for approximately 4500 feet, will be a "U" formation of docks and piers extending diagonally into the center with the Southern Pacific on the north side and the Western Pacific tracks on the south. The piers would be 200 feet wide and 800 feet long with spur track connections. For the construction of the first unit, the Southern Pacific now has 100 carloads of material on the ground and is preparing to rush construction.

S. P. MAY CEASE STRIP OF LEASE HOLDINGS

Under the plans as contemplated, it is possible that the Southern Pacific would strip of a strip of its lease holdings and set the pierhead line back, while the city would also give

2000 Austrian Sailors Lost Daring Wins Italian Victory

VENICE, Wednesday, June 12.—Commander Rizzo, whose remarkable exploit in sinking an Austrian battleship in the Adriatic has thrilled Italy, tells a graphic story of the encounter in which he took part and during which another Austrian battleship was either badly damaged or destroyed by another motor boat in charge of Commander Millazzo. It is possible that 2000 sailors were lost during the encounter.

"I am sorry for the sailors who lost their lives," he said in beginning his story, "but am glad that we got the dreadnaught. Why it ventured out of Pola harbor no one knows, but it was certainly foolish for them to do so."

"I was on patrol scout duty as usual off the Dalmatian coast near Pass Selve, between the islands of Azinello and Premuda. I had just finished my patrol and had turned for my base when about ten miles away I saw a great enveloping cloud of smoke. It appeared like a blot through the early light. I thought at first it was some boat which had discovered me and was giving chase. I determined to make the best of a bad fix. After turning back I said to my two crews of ten men to each boat: 'Follows, the Italian scout boats have been waiting for two years and the whole Italian navy has been trying to destroy Austrian ships for three years. Are you willing to risk all on a chance of obtaining glory and the country's gratitude?' To a man they answered 'Yes.'"

DESTROYERS SURROUND TWO BATTLESHIPS.
"We were speeding back with our motors muffled when, to my amazement, I discovered two battleships, surrounded by a number of destroyers, which later I counted as ten. I assigned the second battleship to the other motor boat, while I took the first."

"I slipped inside the line of destroyers between the third and fourth of these craft. I was not noticed in the light fog. The water was smooth and my torpedoes got off nicely. At first, with a 500-pound charge, struck the first dreadnaught between the two funnels, while the second struck her just aft the second funnel. As the torpedoes exploded I saw the mighty ship tremble, two great fountains of water rose high in the air and black smoke welled up from the rents in her side. Then I ran for it, escaping between the second and third destroyers in the line. I was discovered by the fourth destroyer, which gave chase at a distance of 150 yards and fired on me. I was too close, however, to be hit. Then I dropped a depth charge bomb, such as is generally used against submarines. Fortunately for us it exploded under the destroyer. I saw her leap into the air, turn sharply and then stop, giving up the chase and permitting us to escape. The other destroyers were

20,000 GREEKS ARE MASSACRED BY BULGARIANS

WASHINGTON, June 12.—The wholesale massacre by the Bulgarians of all but 140 of 20,000 Greeks reported from Eastern Macedonia was reported to the Greek legation today by the Bulgarian prisoners at Geneva, Switzerland.

Officials believe that it is the purpose of Bulgaria to wipe out the Greek populations of captured territory in order that a firm grip of northern Greece might be retained after peace is declared. Since the Greek deportations have taken place, it is pointed out that Macedonia is now inhabited largely by Bulgarians, who will establish future allegiance to their country rather than to Greece.

Wilson Asks Votes For All Women

WASHINGTON, June 12.—President Wilson late this afternoon proclaimed political freedom for all the women of the world as the whole world's solemn duty. Replying to a memorial, signed by the Woman Suffrage leaders of England, France, Belgium, Italy and Portugal, presented by a delegation headed by Mrs. Carrie Chapman Catt, asking that he address the world on the subject the President declared after reciting the service women of all nations have rendered in the war:

"It is high time that some part of our debt of gratitude to them should be acknowledged and paid, and the only acknowledgment they ask is their admission to the suffrage. Can we justly refuse it?"

MOONEY IN COURT BEGS JUDGE TO BEGIN TRIAL

Convicted Man Makes Dramatic Appeal to Judge Cabanis to Rule Against Further Postponement in Hearing of Case

JURIST ALLOWS NEW
THIRTY-DAY INTERIM

Liberty Bonds Refused As Substitutes for Cash Bail for Mrs. Rena Mooney When the Offer Is Made to Dunne

SAN FRANCISCO, June 12.—Thomas J. Mooney, sentenced to hang at San Quentin on August 23, for alleged participation in the Preparedness Day bomb disaster, nearly two years ago, arose in Superior Judge George Cabanis' court this morning, in the absence of his attorney, and made a dramatic appeal for a new trial.

Mooney said: "Your honor, it may be the last time I shall ever appear in your court of any other court unless some unforeseen condition arises between now and August 23. I want to ask you if it is not possible for you as a presiding judge of this county, to assist in complying with the desires of the President of the United States in my case?"

At this point Mooney accused Superior Judge Frank Dunne, of being fanatically prejudiced. He was stopped by Judge Cabanis who announced that no judge could be criticized in his court. Mooney began a like attack upon District Attorney Charles M. Fickert, but was stopped again by Judge Cabanis, who said he would not permit any public officials to be criticized in his court. Mooney continued with the statement in his own behalf.

ACCUSES DUNNE, IS SILENCED.
"There are two indictments in this court against me," he declared. "Your honor has tried none of the so-called bomb defendants. I have made an appeal to the governor for a pardon that I may be tried again. Now I ask you in the light of all the developments of these cases to order the district attorney to proceed against me in one of the cases in your court, and if he refuses, I ask that you appoint an attorney for that purpose, or join with me in a demand on the attorney general that he send one of his deputies to try one of the indictments."

"If I felt that there was merit to your request I would be at a loss as to what course to pursue. Your case is now up before the Governor of the State at the instance of the President of the United States. It is not for me to interfere. I may add that continuances have been granted in your case from time to time, in which your attorneys in every instance acquiesced. Therefore, you have no legal ground for haste. I will have to deny your plea."

ATTORNEY MCKENZIE IS SENT FOR.

Judge Cabanis then sent for Attorney Edward McKenzie, one of the counsel for the bomb defendants and advised him as to what had occurred. McKenzie told the court that he believed it was in the court's power to order a trial but Judge Cabanis refused to see the situation in that light, and over the objections of Attorney McKenzie, continued Mooney's case and those of the other defendants for a period of thirty days.

The defendants were also in Superior Judge Frank Dunne's court this morning to have their cases there set. They were put over two weeks. In the latter court, an effort was made by Attorney McKenzie for the defendants to substitute Liberty bonds for the \$15,000 cash bail now in the hands of the clerk of the county, for Rena Mooney. Judge Dunne refused to accept the substitute declaring that it was a "closed incident" as far as he was concerned.

Villa-Led Bandits Carry Off 11 Women

EL PASO, Texas, June 12.—Fifty Carranza soldiers were killed by bandits personally led by Francisco Villa, who held up and robbed a train near Santiago Papasquero, Durango, according to reports received here today. The bandits were said to have carried off to the mountains eleven women passengers, mostly girls.

Mysterious Malady Appears in Britain

LONDON, June 12.—A mysterious malady has broken out among the workers in munitions factories in Belfast.

(For several weeks epidemics of a strange disease have been breaking out through Europe. Spain has been the worst sufferer, but there were outbreaks in the Scandinavian countries.)

ARTILLERY FIRE WINS VICTORY FOR AMERICANS

Gallant Marines Take Some 400 Prisoners in Fighting Which Cleared Wood of Foe Northeast Chateau-Thierry

SIX OFFICERS ARE AMONG MEN CAPTURED

Germany's Plans Declared to Call for Ending of War by Next Fall; Enemy Captive Saves Wounded U. S. Officer

BULLETIN.
WITH THE AMERICANS ON THE MARNE, June 12.—(4 p. m.)—The Americans holding the three-mile front between Bouresches and Torcy repulsed two German attacks in their twelfth day and night of fighting. They took 50 prisoners including a captain, and captured a number of heavy casualties.

BY ASSOCIATED PRESS.
WITH THE AMERICANS IN FRANCE, June 12.—The excellence of the American artillery fire was largely responsible for the capture by American marines of approximately 400 prisoners in the fighting which resulted in the clearing out of Belle wood, northeast of Chateau-Thierry.

The Germans, who had been told to avoid capture because the Americans would torture them, started to run after the American machine guns had made the wood untenable, but the artillery barrage was so perfect that the Germans were cut off from escape.

Among the prisoners are six officers, a major, a captain and four lieutenants. All were poorly clad and some had pieces of bread tied to their uniforms with strings. The prisoners said they were glad to be captured and several expressed a desire to go to the United States after the war to live.

GERMANY PLANS TO END WAR NEXT FALL

All of Germany's plans, they added, called for ending the war next fall. The prisoners were told, they said, that among the Americans were many negroes.

The scarcity of officers in the German army is shown by the fact that one of the prisoners, a first sergeant, commanded an entire company. He said this was a common thing now. All the prisoners expressed admiration for the fighting qualities of the Americans.

BY FRED S. FERGUSON.
United Press Staff Correspondent.

WITH THE AMERICANS WEST OF MONTMIDI, June 12.—A comparative lull has settled over this sector again and only normal fire is being maintained by opposing artillery. Heavy losses in TEUTON RESERVE UNITS.

Prisoners report heavy losses among German reserve units as a result of our recent heavy bombardments. No change has been made in the enemy divisions opposite our lines lately, according to prisoners.

A rare case of Boche being human was revealed last night. One who was taken prisoner saved the life of his American captor.

A lieutenant leading a patrol captured a German and started back to the American lines. The officer was seriously wounded by the explosion of a shell. The Boche dressed the American's wounds with his own emergency kit, working in the dim light of No Man's Land in the midst of shell fire.

The lieutenant then directed the Boche to an American post. The German ran to the post and informed officers there of the lieutenant's predicament. The latter will recover.

Vantage Ground Taken by Enemy at Terrific Cost Is Re-Entered by Foch's Men

WASHINGTON, June 13.—Secretary of War Baker's reply today to the statement of General Von Stein, the Prussian war minister, that the allied armies are beaten was:

"That is the opinion of General Von Stein. The opinion of General Foch, which is very much more important, has not been heard. The confidence of the American people in General Foch remains unshaken."

ENGLISH AND FRENCH BOTH GAIN GROUND

PARIS, June 13.—French troops last night struck a heavy blow against the German forces which have been advancing on the eastern wing of the new front of the attack. The war office announced today that the French had hurled back the enemy to the north bank of the Matz river.

Violent combats continue between the Aisne river and the Villers-Cotterets forest. The Germans have progressed as far as the ravine east of Laverne, north of Culty.

The Germans last night made a violent attack on the American sector between Bouresches and Belle wood, on the Marne front. The Americans broke up the attack and inflicted serious losses on the enemy, holding all the gains which they have made.

After violent fighting the enemy has obtained a foothold in Courvres and St. Pierre-Aigle. There was plenty of fighting yesterday, but it did not affect the general situation. As the Germans are fighting against time this result is a distinct gain to the defense.

The Germans, it is true, made slight progress on the left toward Compiègne, from which, at Mellecourt, they are now only five miles away, but so did the French on the other wing in the region of Mery.

As the nature of the ground around Mery precludes the French with collected gun positions behind hills from which they can pound at short range the road by which all supplies must pass to the German center in the thrust toward Compiègne, the French can claim an advantage in the day's operations, for they also stopped the German efforts south of the Aisne against the forest east of Villers-Cotterets.

BY UNITED PRESS.
LEASD WIRE TO TRIBUNE.

PARIS, June 12.—The civilian evacuation of Compiègne has been completed. It was officially announced today. The evacuation of refugees are arriving on special trains.

"The Germans yesterday used five divisions (60,000 men) between the Aisne and the forest of Villers-Cotterets," the Exchange Telegraph correspondent declared today. "Their losses are estimated at 20,000."

U.S. Asked to Seize Wires, Avert Strike

BY UNITED PRESS.
LEASD WIRE TO TRIBUNE.

ST. PAUL, Minn., June 13.—Resolutions were adopted by the American Federation of Labor, in connection here, asking the United States government to take over the Western Union and Postal Telegraph Companies to avert a strike of telegraph operators.

Government control of all telegraph companies will be urged later, it was said.

A resolution asking that a committee of five members of the Federation be adopted by the American Federation of Labor, in connection here, asking the United States government to take over the Western Union and Postal Telegraph Companies to avert a strike of telegraph operators.

Other resolutions considered today urged the government to aid in establishing an independent Bohemia and endorsed a proposed trip to Italy by President Samuel Gompers to explain America's war aims to workers there.

Recognizing the increased demands for women workers, the federation expected late today to discuss plans for unionizing them. A union of women school teachers and bookkeepers probably will be the first step in this direction.

N. Y. Flying Cadet Killed in Texas

SAN ANTONIO, June 12.—Percy H. Long, of Long Island, N. Y., flying cadet at Kelly Field, was killed today when his plane became unmanageable after struck by a gust of wind, and fell four miles from the field.

"Bone Dry" Nation Is Given Setback

WASHINGTON, June 12.—The movement in Congress to make the nation "bone dry" for the period of the war received a severe setback this afternoon when Senator Ellison Smith of South Carolina, acting chairman of the agriculture committee, informed his colleagues that President Wilson was opposed to the enactment of any prohibition measure as a rider to an appropriation bill.

Many senators, politically classified as "dry," quickly withdrew their support of the pending Jones amendment prohibiting the manufacture and sale of alcoholic beverages during the war.

Pershing Adopts Two War Orphans

PARIS, June 12.—General Pershing adopted two of the sixty-eight French war orphans adopted by American soldiers this week. It was announced today. A single regiment adopted 84.

GARRISON NAMED N. S. G. W. LEADER

On account of his record as organizer of War-Saving Stamp societies in the parlor of Alameda county, County Auditor E. F. Garrison was today appointed state organizer for the Native Sons, commissioned to organize the 200 parlor in the state and bring the organization to the end of a hundred per cent basis before the end of the drive, June 28. The appointment was made by E. F. Schlesinger of San Francisco, state director for the war savings campaign.

Garrison says he immediately will get into communication with the many parlor of the state and urge a united effort to put the organization on record as backing the government's requirements with the full membership.

Wire Strike Cause Removed by Head

NEW YORK, June 13.—Clarence H. Mackay, head of the Postal Telegraph Company, has wired President Wilson that his company waives the right to discharge any of its men because they belong to the union, it was learned today.

BOTH ARE WARNED.
As an aftermath of their fistie disturbance in Judge Samuels' department, the police court two weeks ago, Abraham Davis Jr. and James Wasselo were found guilty today by Judge Aaron Turner who suspended judgment for thirty days with the understanding that there will be no recurrence of the quarrels which involved the two families who live in the vicinity of Sixth and Market streets.

German Women to Be Registered on June 17 and After

The registration of German women and girls will take place in Room 202, city hall, for all residents of Oakland. Beginning June 17, 1918, and ending June 26, 1918, the office will be open each day from 6 A. M. to 8 P. M., Sunday excepted. All females 14 years old and over, of German birth, who have not become naturalized by declaration, marriage or otherwise, must register as aliens. All women married to German aliens are classified as aliens by this law.

Each registrant must furnish four photos of herself on light paper, light colored background. The photos to be 3x3 inches, unmounted, taken front view, head and shoulders, without hat.

All German alien girls and women are required to report at the room mentioned in person for the purpose of registering.

SATURDAY MARINE DAY IN OAKLAND

Committees of the War Camp Community Service today are rounding out the final details of "Marine Day" in Oakland, Saturday, when the Marine Corps men from Mare Island and the citizens of Oakland will join in a celebration of the Marine victories in France. Baseball at the Coast League park, a ball in the Auditorium, and other events are to be offered, and a special boat will run from Mare Island to bring the "Sea Soldiers" to Oakland.

This is the first of a series of events planned by the Community Service, which operates the "Defenders' Club" for enlisted men.

The recent affair of the Wednesday Choral Club of Oakland at the Auditorium has netted the service \$750. Executive Chairman Alexander Stewart announced today, Chairman Joseph N. Rotherg having extended the official thanks of the service to Mrs. N. A. Koser, president of the club; Paul Steindorf, director; Miss Jeanne Jomelli, Sigmund Beel, Mrs. Esta Pomeroy and Miss Marian Prevost, who aided to make the affair a success.

Official recognition of the work of the War Camp Community Service in Oakland has been received from Captain E. H. Durrell, U. S. N., commandant of Yerba Buena camp. He writes:

"I take great pleasure in saying that the War Camp Community Service is to be highly commended on the splendid work that is being carried on by it in Oakland.

"I am most confident that the good people of Oakland will give the financial assistance to your club that is necessary for it to continue to operate successfully. The service has issued a special call to all Oakland residents to lend their automobiles when possible Saturday and Sunday during the summer, that visiting soldiers and sailors may be taken about Oakland and its environs.

Saloon Proprietors Called by Council

Complaint on the part of A. Martenell that he was fined of \$250 in cash and a check for \$100 in a card game in a saloon conducted by Silvia Pagani and B. Colongli at 1045 Seventh street today, resulted in the city council, on motion of Commissioner Jackson, citing them to appear next Monday and show cause why the license of the place should not be revoked. According to the report of Inspectors William Kyle and Timothy Flynn, the manager of the place admitted that gambling had been going on there.

Kahn Says Eight Million Men Needed

WASHINGTON, June 12.—Eight million American soldiers in France will be needed to secure complete victory over Germany declared Representative Julius Kahn, ranking Republican member of the House Military Affairs committee this afternoon. He was discussing the intention of the administration to introduce at the short session beginning in December a bill extending the draft age limit from 18 to 45.

CELEBRATION WILL SET NEW RECORD

Oakland will this year hold one of the biggest Fourth of July celebrations in the history of the city, with the army and navy as the guests of the day, a mammoth parade, sports on the lake, a reception and entertainment for enlisted men in the auditorium, a big ball at night for soldiers and sailors, and other special features.

Details of the big affair were discussed this afternoon at the Merchants' Exchange rooms, where the committee heads of the celebration, appointed two weeks ago by the Exchange met to definitely report on the various features of the celebration.

Invitations will be extended to the army, navy and marine corps to participate in the mammoth patriotic celebration and in the parade. Harry Williams, who had been named general chairman, resigned from this position to assume direct charge of the parade arrangements, his place as general chairman being taken by J. C. Downey.

Whether fireworks will be seen at night, according to the time-honored custom, has not yet been decided, but it is to be taken up with the Federal authorities. The committee expects to receive full permission for the display. The sum of \$1500 has already been appropriated by the city council and \$1000 by the Board of Supervisors to finance the celebration.

U. C. MAY EMPLOY GLASS AT CHABOT

That the Board of Education would be agreeable to a proposition to turn over to the University of California the management and direction of the Chabot Observatory if the university authorities should desire to make the acquisition, was stated today by Dan W. Pratt, secretary of the board.

While no overture have been made from either the board or the university authorities, it was recently suggested by the civil service board that it would be a good plan to negotiate the deal. At the same time the city would be able to make considerable saving in financial outlay for the upkeep of the observatory and the institution could be put into wider use as an adjunct of the university.

It would be impracticable for an outright transfer to be made for the reason that the property belongs to the city of Oakland, while the great telescope is the property of the school district. Should whereby the university would merely assume control for a certain period.

Council Approves New Hanlon Lease

The city council today approved the report of Commissioner Moran awarding a lease of less than two acres of land to the Hanlon Drydock and Shipbuilding Company, which was bid in by that concern several days ago. After sixty days the lease will be made final.

TWO TOO MANY.

Two mothers-in-law in one family proved to be too much, and so the combination was broken up today when Thomas B. Claypool secured a divorce in Judge W. S. Wells' court from his wife, Emma Claypool, alleging desertion. The wife appeared by her attorney, Henry E. Skinner, but did not contest the action. The testimony showed that the mothers of both parents lived in the home and that they disagreed on the war.

INSANITY CHARGE DISMISSED.

Judge J. J. Trabucco today found the insanity charge preferred against Mrs. Clara E. Bohn by her husband, R. C. Bohn, to be without foundation, and dismissed her. Bohn charged that she had threatened to kill herself and the children. She admitted the charge, but explained that she made the threat in the hope of frightening him into society.

FRENCH DECORATE BRAVE AMERICANS

WITH THE AMERICAN ARMY IN FRANCE, June 12.—The following Americans have been awarded the French war cross for heroism and fidelity to duty:

Infantry—Majors James F. Hickey and C. J. Rau, Captains A. H. Griswold and C. M. Thompson, Lieutenants John J. Riley, C. E. Lockhart, A. F. Oberlin, D. W. Strickland and C. W. Comfort, Chaplains Lyman H. Rollins and O. A. Petty, Sergeants Edward J. Bradley, Milton H. Maxin and J. T. Church, Corporals James F. Carthy, W. A. Patton, Ernest P. McCarthy, Oscar F. Durand, J. R. Tharnely, John S. Petro and F. W. Rose, Privates F. E. Barry, J. S. Ferry, Geo. W. McGinnis, Adelbert Brownson, J. J. Conner, E. J. Shaw, H. L. Bailey, L. L. Dion, J. Trion, Ray Moore, H. W. Mellin, Ernest Firth, J. T. Bird, M. J. Mehan, U. R. Hartse, Jacob Levy, W. B. Bolton, Patrick Malone, M. L. Gogan, Andrew McIlver, J. J. Lorynack, William Pushnick, John D. Curry, Arthur Bjornberg, J. Clark, G. Stevens, G. C. Peckham, H. W. Congdon, A. F. Scolia, A. C. Lugg, C. E. Brundell, M. J. Ryan, S. A. Cosky, W. F. Aaley and M. J. Shea.

Field Artillery—Major F. S. Perkins, Lieutenants Thos. Sanders, T. G. Holt, T. R. Johnson, A. W. Thompson, Daniel Willard, Lee Cover, J. C. Davis and Henville Whoot, Sergeants H. M. McPherson, J. D. Galt, J. D. Galt, J. H. Broadhead, Corporals Howard Morse, H. J. McDonald, F. D. Hurrell and E. L. Vleadury, Privates A. Richards, E. Sewell, R. Byers, W. H. Mullen, M. O. Kyme, H. R. Johnson, J. E. Perkins, Vincent, Polito, Domingo Palosky, J. R. Madden, W. M. Proctor, T. J. Berry, E. E. Bernier, R. E. Clark, Chas. Clapham, Robert Casle, John P. Bresnahan, F. P. Gordon and E. H. Hobbs, Chaplain W. J. Farrell.

Engineers—Sergeant W. C. Shea, Ammunition Train—Corporal L. M. Emery.

Signal Corps—Sergeant Robert Dundas, Privates R. A. Bale, E. G. Bray and H. E. Lining.

Medical Department—Sergeants G. W. Wilcox, G. C. Northrop, J. S. Holzheimer, J. B. Kendry and R. R. Drury, Private Wilbur J. Hannon.

POTATOES CHEAP IN LOCAL MARKET

Potatoes are selling at a price in the Oakland markets that sets a record for cheapness at this time of the year, due to the "plant beans" agitation among the farmers of California. Hundreds of farmers are pulling out their first crop of potatoes as fast as possible to plant beans, as urged by the Government and by the University of California, with the result that heavy arrivals in the commission market have exceeded the demand.

BERKELEY STAGES NEAR-KIDNAPING

BERKELEY, June 12.—A scene savoring of melodramatic movies was enacted in Berkeley yesterday afternoon when Miss Elizabeth Ames, pretty and 18 years old, was forcibly seized by a man at Ninth street and Bancroft way, after she had stepped from a street car.

Miss Ames broke away, but her would-be captor caught her again as she ran down the street, and she was helped brought to McDermott, butcher, of 101 Bancroft way, to the rescue, and the man was held pending the arrival of the police.

British Soldier Is Lion Club Speaker

Private Jack Lingwood, one of the survivors of the famous "Princess Pat" regiment, was the speaker today before the Lions' Club at its weekly luncheon at the Hotel Oakland, when he told of the fighting on the West front of life in the trenches, and gave an account to the business men of America to see that wounded Americans, when they return from France, are rehabilitated in the nation they fought to save.

The casualty list is growing daily, said Lingwood, "and I am sure that soon he coming home wounded, just as I came home to Canada. Take care of these boys, don't forget what they have done for you."

Lingwood described vividly the combat in which the German hordes were beaten back four times over no man's land by the almost-obliterated Canadian force. L. C. Fraser presided at the luncheon.

To Increase Power in Munition Centers.

WASHINGTON, June 12.—Appropriation of \$200,000,000 to increase power supply on overloaded industrial centers will be asked of congress by President Wilson at the request of the war industries board. This follows orders for war materials from General Pershing of almost overwhelming magnitude.

The Advance in the Spring

It is a well known fact that men of courage, men with brawn and nerve to "buck the line" and go "over-the-top" have rich red blood coursing through their veins. The nerves are fed on the red blood corpuscles, so when you feel tired, worn out before the day is half over, when pimples show on neck or face, it's the danger signal, and it is time to repair the blood cells.

In the spring is the best time to take stock of one's condition. If the blood is thin and watery, face pale or pimply, and one is generally weak, tired and listless, a spring tonic should be taken. One that will do the spring house-cleaning, an old-fashioned herbal remedy that was used by everybody nearly 50 years ago, is still safe and sane because it contains no alcohol or narcotic. It is made up of Blood root, Golden Seal root, Oregon Grape root, Queen's root, Stone root, Black Cherry bark—extracted with glycerine and made into liquid or tablets. This blood tonic was first put out by Dr. Pierce in ready-to-use form and since then has been sold by million bottles as Dr. Pierce's Golden Medical Discovery. If druggist does not keep this in tablet form, send sixty cents to Dr. Pierce's Invalids' Hotel and Surgical Institute in Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets act naturally. They help Nature to do her own work. They cleanse and renovate, mildly but thoroughly, the whole system. Regulate it, too. The help that they give lasts.

They're a purely vegetable, perfectly harmless liver pill, the smallest, easiest, and best to take.

Commencement

The boys and girls from the High School and College are prepared to commence the battle with the world. They have prepared themselves carefully.

Are you as well prepared as you should be? Are you giving your eyes proper care and attention.

POWER-SHORTAGE IS HARD PROBLEM

What the future will mean for the smaller companies furnishing hydro-electric power in Central and Northern California is one of the most serious problems that the Public Utilities Committee appointed to handle the details of relieving the power shortage due to lack of water in the streams has to solve. Present indications are that when the priority arrangement becomes effective many of the consumers of power generated by the smaller companies will be barred from operation, and the resultant loss to the small companies threatens to involve the whole proposed solution in a legal tangle.

There will not be another meeting of the committee until Saturday, but in the meantime the individual members will make a study of the many ramifications of their task and it is hoped that a basis for final action may be established at the next meeting.

"Passing judgment on who and who shall not receive power and on the adjustment of equities is one of the gravest duties the Commission has ever been called on to exercise," said Railroad Commissioner E. O. Edgerton. "It may mean death to some of the smaller power-purchasing and manufacturing firms."

U. S. Problem of Divorce Is Handled Without Gloves

Scene from "The Blindness of Divorce" at the American Theater.

Film Drama at the American Deals Fearlessly With Perplexing Question

Striking at the nation's most perplexing home problem, the evils of divorce, the American is presenting this week "The Blindness of Divorce." As the second feature of the bill Viola Dana appears in "The Only Road," a drama.

The United States has the record as the greatest nation of the age for divorce. This distinction is one that has troubled presidents, economists, clergymen and even Congress, with but little result. So important did the Government regard the evils of divorce that the U. S. census bureau made an inquiry into it with startling results.

Census records show that divorce is increasing at an alarming rate and that now the ratio is about one divorce to every twelve marriages.

"The Blindness of Divorce" takes a typical instance based upon these statistics and gives a thorough dramatic treatment to the subject. Why America leads the world, and why the consequences are so tragic is vividly portrayed. Why college girls do not figure in divorce and why there is little divorce among real idle people is shown. The whole problem is given a very keen, broad depiction.

NEW SUGAR RULES ARE PROMULGATED

Stringent conservation of sugar has been demanded by the Food Administration. In a communication to local administration headquarters from Federal Food Administrator Herbert C. Hoover the limit which any householder may buy from now on is two pounds for city use and five pounds for rural use. The regulation goes into effect immediately. Hoover's communication follows:

"Despite the acute sugar situation, it is not desirable to curtail the use of sugar for home canning or preserving and you may, therefore, continue to sell sugar for this purpose up to 25-pound lots at one time, provided you take the signed statement of the housewife in the form now established. It will be necessary, however, from this date on for you to mail these statements to your city or county food administrator at the close of each week and a checking system will be instituted to ascertain whether or not this privilege is being abused. In cases of groups of people, such as canning clubs, sugar may be obtained in larger quantities by applying to the local food administrator."

SALES IN QUANTITY.
"Sales of sugar to boarding houses and country stores and ranches remote or difficult of access must be confined strictly to a basis of three pounds per person per month, and the quantity delivered at any one time must be no greater than the amount required for a period of ten days. For example, sales to a boarding house serving ten people (thirty meals a day) must not exceed ten pounds at one time, and must not be made oftener than three times per month. In the case of inaccessible ranches the same basis rules. For example, if 250 lbs. to market are made only every month three pounds per person can be sold. If crops are made every three months then one and one-half pounds per person may be sold."

"As patriotic citizens of the United States, the Food Administration urges you to make it your personal business to see that the sale and use of sugar is not abused. The scarcity is serious and unless the general public confines its consumption to not more than three pounds per person per month we will be without sugar later in the year."

URGE CO-OPERATION.
"We urge, therefore, your sincere co-operation in the enforcement of the above rules. If you believe that any person is hoarding sugar, or is buying from more than one dealer in an effort to increase the total quantity purchased, you will be doing your Government a service by reporting the facts immediately. The purpose in putting in the two and five-pound rule is to reduce consumption in the home and no patriotic housewife will make a second purchase until the amount in her pantry is used up or practically used up."

"Your own loyalty to the Government in this war crisis demands that you work closely with the Food Administration to prevent hoarding of sugar."

UNITED STATES FOOD ADMINISTRATION FOR CALIFORNIA.

Naturalized Citizens Under Surveillance

WASHINGTON, June 13.—A general roundup of disloyal naturalized citizens was this afternoon ordered by Attorney General Gregory following the intervention of Carl Swelgin of Seattle, the first naturalized German to be sent to an internment camp. Swelgin, although he had lived in the United States for 20 years and had been a naturalized citizen since 1917, was convicted of dangerous activities. Orders were sent out by the Department of Justice to United States attorneys throughout the country to report instances of disloyalty on the part of naturalized citizens.

Triotic music, addresses and demonstrations will occupy the entire day.

Mrs. Dorr's Son Goes Over Top Was in the Battle of Cantigny

Rheta Childs Dorr. Mrs. Dorr did not know her boy had been hurt until this morning, when she read the following cable in the New York World:

By JOSEPH W. GRIGG.
Staff Correspondent of the World.
(Copyright, 1918, by the Press Publishing Co. (The New York World).)
(Sp1 Cable Dispatch to The World).
WITH THE AMERICAN ARMY IN PICARDY, May 28.—Among the women with whom I have talked since the Cantigny engagement, none is more cheery than Julian Dorr, son of Rheta Childs Dorr, who is now in the New York World.

"Wasn't it hard luck?" he said to me as he lay comfortably smoking in

one of our hospitals. "I think I was the first man wounded when we went over the top. I got smacked in the leg with a machine gun bullet when we had gone about 100 yards. I tried to keep on going, but had to flop."

LAY IN NO MAN'S LAND TWO HOURS
The fellows all swept on behind tanks, some even going in front, they were so impatient. I had to lie in No Man's Land for two hours before I was picked up, and I saw our fellows going into Cantigny and bringing back prisoners. It was a good show, but it wasn't exactly pleasant when the tanks were being shelled as they returned because some boche shells burst near me.

Mrs. Dorr was startled and, mother-like, wondered how badly her boy had been hurt, but she took it like the true American mother she is.

"He wanted to go over the top," she said. "When I saw him last he was fretting his heart out because they had given him some duties which were keeping him away from the front. He was trying to get back and I know he was glad to succeed. I am proud of him. I can't help it. I think any American mother should be proud of a boy who has tried to do his utmost."

MISSIONARY MEETING.
The Women's Foreign Missionary Society of St. Stephen's Church, will hold a meeting Friday afternoon at 2 o'clock at the home of Mrs. O. B.

LEAGUE TO RALLY AT NEPTUNE BEACH

War Service Day is to be observed at Neptune Beach on June 22. The patriotic rally and picnic of the War Service League is now engaging the attention and effort of the twenty-three thousand pledged members of the league who have invited all other war service organizations to unite for the day. The executive committee, of which Harmon Bell, food administrator of Oakland is chairman, estimates that not less than fifty thousand citizens will take part in the "Day of Re-dedication," as the occasion is to be known.

Speeches will be conducted throughout the day and much professional and amateur talent has been promised for the popular patriotic demonstration. There will be a keynote of national loyalty observed throughout the day, with intermissions from mid-afternoon, till midnight.

William Nat Friend is chairman of the day. Percy Young, manager of ceremonies, has announced that patriotic tableaux by young ladies community singing, bagpipe specialties, male and female quartets, orchestral selections and many other features will be interspersed with short and snappy patriotic talks by noted speakers. Governor Stephens has been invited to make the address on loyalty in the evening.

Smith, Edgewood avenue. Miss Ella Jewett, who has just returned from Japan, will be present and will speak. Miss Jeanette Dutches, general secretary of the Y. W. C. A., will speak in the interest of that organization.

PIONEER WOMAN'S FUNERAL FRIDAY

Funeral services, which are to be held at the chapel at Mountain View cemetery, Friday morning, at 11 o'clock for Mrs. Mary A. Hackett, 70, widow of Captain Edward Hackett, early day ferryboat pilot, marks the passing of one of the sterling old pioneers of California, of which only a declining few remain.

Mrs. Hackett died at her home in San Ramon valley Tuesday. She was a native of Rochester, N. Y., and came to California in the early '50's. For many years she lived in San Francisco. Her father, Judge Fletcher N. Haight, was the first federal judge for the southern half of the state, and her brother was former Governor H. H. Haight. Haight street in San Francisco is named after the family.

The major portion of Mrs. Hackett's life was spent in Oakland at the residence of her son, Walter Hackett, a London playwright, and a brother, Harry M. Haight, 135 Kelton avenue, Piedmont.

N. D. G. W. WILL HOLD ELECTION

SANTA CRUZ, June 13.—Election of new officers for the ensuing year, with the appearance of several unexpected candidates at the last minute, marked the thirty-second annual convention of the Native Daughters of the Golden West, in session here today. Clara K. Wittenmeyer appeared on the fraternal horizon as candidate for grand secretary, while a contest developed between Alice M. Dougherty, incumbent, and May C. Bolderman of San Francisco, for the same position.

The Native Daughters will vote today on a suggested Mills College scholarship, supported by the Native Daughters of the State, at the suggestion of Dr. Marilena Bertoni, past president of the body. The committee appointed to arrange revisions in the constitution covering representations of the various chapters in the grand parlor, reported in favor of the proposed changes.

Tomorrow, Flag Day, elaborate patriotic ceremonies will be staged by the visiting delegates under direction and auspices of the Santa Cruz parlor. Patriotic music, addresses and demonstrations will occupy the entire day.

ZEROLENE

The Standard Oil for Motor Cars

The Popular Motor Oil

More ZEROLENE is used for automobiles on the Pacific Coast than all other oils combined.

Leading motor car distributors praise ZEROLENE, correctly refined from selected California asphalt-base crude, because it maintains its lubricating body at cylinder heat and gives perfect lubrication with less wear and less carbon deposit.

ZEROLENE forms and keeps a perfect lubricating film around the pistons and cylinder walls. It leaves less carbon because, being made from asphalt-base crude, it burns clean and goes out with exhaust.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

At dealers everywhere and Standard Oil Service Stations

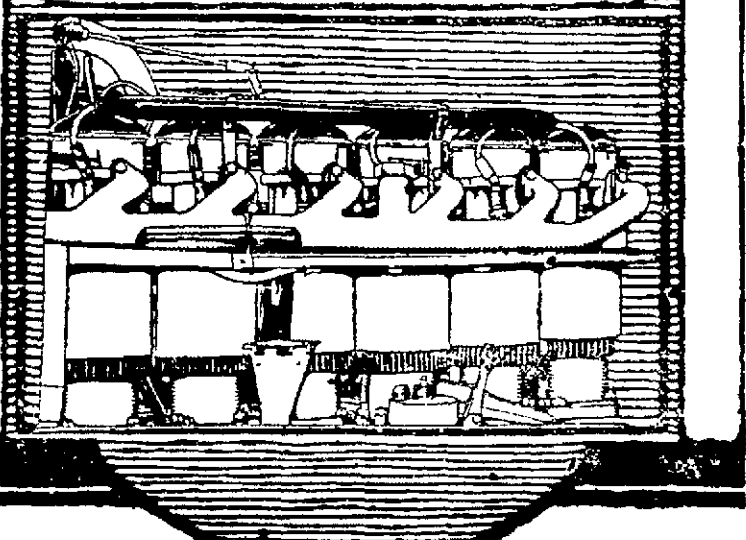

STANDARD OIL COMPANY
(CALIFORNIA)

Correct Lubrication for the Air-Cooled Type Engine

Proper cooling and correct lubrication are two things vital to the life of any automobile engine. Engines are either water-cooled or air-cooled. Our illustration is of the air-cooled type.

Engines of this type, like all internal combustion engines, require an oil that maintains its full lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. ZEROLENE fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

ZEROLENE is made in several consistencies to meet with scientific exactness the lubrication needs of all types of automobile engines. Get our "Correct Lubrication Chart" covering your car. At dealers everywhere and Standard Oil Service Stations.

SOCIETY

Revelations of a Wife

The knitting tea given by Miss Alice Buteau, eldest daughter of Dr. S. H. Buteau and Mrs. Buteau of Piedmont, this afternoon, was unusually interesting, since the guest list included quite a few of the brides of the past winter and summer. There was no one guest honored especially, the affair being for a social gathering on the part of the hostess to her friends. Some of those who were present today were: Mrs. John Charles Doughty and Mrs. Donald Pearson of Alameda; Mrs. Frank Waldman, who has just returned from the East; Mrs. Wallace Ransom, Mrs. Horace Meek, Mrs. Claude Thomas Faw, Mrs. Adolph Hediger, Mrs. Ralph Beckett of Oakland and the Misses: Allison Edoff, Doris Horn, Norman, Helene Buteau, Jane Urban and Charlotte Cockcroft.

On Saturday afternoon Miss Buteau is planning an interesting party for Miss Esther Sharon, the fiancée of Lucius Norris, whose wedding is but a week distant.

Mrs. Harry C. Pondleton, of El Cerrito avenue, has had her house guest over the week-end and her mother, Mrs. L. O. Rhodes, who returned Tuesday to her ranch at Morgan Hill.

For the benefit of the Armenian and Syrian Relief Society and the Navy League, Saturday, to be held at the home of Mrs. Robert Lewis Hill in Alameda. The program for the evening, there will be a number of special local artists to contribute their services. Austin Sperry is to entertain his friends in song, Miss Fern D. Baughman, violinist, assisted by the Misses: Ruth and Riley is to give a number of select readings and there are a number of others to participate. Miss Caroline Nash of San Francisco will be accompanist.

In honor of three of the brides of the past year, Mrs. Ralph Beckett (Ruth Slavan), Mrs. Clifford Cole (Ruth Hart) and Mrs. Ernest Howard (Violet de Rome), a tea was given Saturday afternoon at the home of Mrs. Claude Thomas Faw at her home. Mrs. Cole has returned from Texas, where her husband, Lieutenant Cole, was stationed in Mexico. The young officer has been ordered abroad and is en route to France.

Mrs. Lucius Handy entertained seventy-five guests last evening at her home in Oakland at a dance and card party. The proceeds of which are to go to the Red Cross. Half a dozen of the younger girls and maidens assisted in the party. The daughters, Miss Louise Martin and Miss Rowena Martin. They were: Miss Katherine Leitch, Miss Claire Reynolds, Miss Bernice Hodson, Miss Louis Williams, Miss Marjorie Lage, Mrs. Grayson McKee and Mrs. John Clifford Ernst.

Frank Stevens, brother of Mrs. Henry Raymond Angwin, who has gone to Washington, D. C., with her husband to reside for the next two years, is now in Denver, Colo., recuperating from a serious illness. He has been studying wireless at Cambridge and when stricken was sent west to recover. Mr. and Mrs. Angwin spent a day or two in Denver with the bride's brother. Mr. Angwin is a civil engineer in the government service.

Ensign Charles Steffens Dodge is now on a ten-day furlough, which he is to spend in New York with his wife, who is Miss Hazel Tietzen of Claremont. Ensign Dodge is to enter Annapolis for a course of three months' special training for the navy, as he has completed his course of study at Key West, Fla.

Mr. and Mrs. Edward Marion Walsh of Piedmont have left for Yosemite valley and are planning a stay of a week or so. Later on when they go to their own summer home in the Tahoe region they are to be joined by the Marjorie Walsh family and that of John Louis Johnson.

Mrs. Edgar Anton Jones departed yesterday for the valley, where she will spend a fortnight at Miami Lodge.

Miss Helen Martin will remain in town this summer, save for the diversion of a week-end trip, and resume her duties for the Red Cross. Miss Algon Wilson is another of the younger girls devoting all of her spare time to the Supper Club Shop.

At a meeting of the Phi Mu Alumnae held at the residence of the Misses Elfrida and Lillian Steindorff Friday evening the engagement of Miss Grace (Mrs. Alvarado) daughter of Mr. and Mrs. H. A. Alvarado of this city, and Lieutenant Marley W. Sahlgren was announced. The benedict to be a son of Mr. and Mrs. D. Sahlgren of Turlock. Both are graduates of the University of California. Miss Alvarado is a member of the Phi Mu sorority, while Lieutenant Sahlgren belongs to the Theta Chi fraternity.

WARTIME RECIPE FOR GRAY HAIR

Actress Gives Simple Inexpensive Recipe for Streaked or Faded Gray Hair.

Mrs. Macle, the well-known New York actress, now a grandmother, and whose hair is still dark, recently made the following statement: "Gray streaked or faded hair can be immediately turned black, brown or light brown, whichever shade you desire, by the use of the following simple remedy that you can make at home: 'Mix a small box of Orleap powder at any drug store. It costs only 25 cents and no extras to buy. Dissolve it in one ounce of water and comb it through the hair. Full directions for use come in each box. 'You need not hesitate to use Orleap, as a \$100.00 gold bond comes in each box guaranteeing the user that Orleap powder does not contain silver, lead, zinc, sulphur, mercury, aniline, coal-tar products or their derivatives. 'It does not rub off, is not sticky or greasy, and leaves the hair fluffy.' It will make a gray haired person look many years younger.'—Advertisement.

Clubs

Fourth of July, from whose glorious celebration our elder sisters have so carefully banished the lady cracker and the red-headed together with the smell of burning powder, which was in some ways a disappointment, will prove something more while this year. In the hiatus between those days when we could patriotically burn our fingers and our eyebrows and proudly bear the wounds of battle among our fellow children and this the day on which we celebrate our liberty, was something of a burden between our desire and inclination. But July 4, 1918, will be different. There will be plenty adding to remind us of our heritage for which men fought and the future for which men are fighting. The greatest difficulty will be in keeping up. The women of the city have pronounced that they will sponsor a community picnic. The first of the announcements, which is the Ethel Moore, chairman of the Oakland woman's committee, Councils of National and State Defense, and Mrs. Russell Lowry, chairman of the Americanization committee, is definitely stated that the big all fresco affair of the people on the shores of Lake Merritt with Lakeside Park the pivot will interfere in no detail with any celebration which any other organization is planning. The Merchant's Exchange, which through the years has kept alive the local celebration of the July holiday, will not only follow its precedent, but will add thereto the festivities attendant upon the launching of the ships. The War Camp Community committee will provide the first of the Uncle Sam's own men with music and dancing in the Oakland Auditorium and the city's belles and matrons to help out. But the people themselves will make merry in so far as the picnic is concerned. The local eloquent of the lake. Families and neighborhoods will gather with their basket lunches and individuals who know no ties may come along and be welcomed to some group. There will be a grand concert and grand eloquent speeches by men and women representing every nationality which has adopted Oakland as the home of his or her citizenship. To be sure, plans are just in the making, but no one the least doubts that the Fourth of July to find something to do to celebrate. A charming feature of the community picnic will be the picturesque headquarters which will be established by the continental countries. They will have the local eloquent in native tongue will bring to the older men and women a direct message of the government.

At the prospect of this meeting and its possible result. Put I felt unaccountably depressed at the idea, instead.

The last day of the Brathwaite's stay had come unusually early to see her mother.

Jack was already "somewhere in France." If Miss Sonnet entered the hospital service, there was a possibility that they might meet. But every time I sincerely liked and admired Miss Sonnet. My brother-cousin had been the only man in my life until Dicky swept me off my feet with his tempestuous love.

Winifred Black

Writes about

A Letter About Jealousy

"DEAR WINIFRED BLACK: Your recent article, 'Other Women Are So Jealous' interested me to such an extent that I would write you a few of my own thoughts and experiences wherein I know that women, or rather girls—as I am only 20 myself, and have had more experience with girls of my own age than women—are jealous and to be real frank, as catty as can be to each other. I am speaking of the majority, and not of the minority.

Do not like girls, and there is nothing wrong with me, and I am not hopeless over my fashion, nor am I from a haughty, snooty, and most of all, a girl who started out with more pipe dreams than the average, and at present find myself without any whatsoever, as I now live in reality, not in poetry.

"You say men are just as jealous of each other. Men may be that way in love and business, but very rarely are they so if another fellow happens to be better looking and better dressed.

"When I first started out to look for a position I was not quite 16—of course I was far from knowing anything about business or the world then. I could sit and look at a pretty girl for hours, wishing in my heart for her happiness.

"But when, after securing a position, the head stenographer seemed to delight in making it as bitter for me as she possibly could—taking every little mistake in the manager's telling me that it was only a matter of time to try to break me in—I heard all of this and developed such a hatred of that girl—or woman, as she was old enough to be my grandmother—that I became frightened of myself.

"I KNOW FROM EXPERIENCE"

"The manager, who was a kind-hearted person, called me into his office one night at closing time and told me he was afraid I was a little too young to handle the work, which was quite heavy. Of course, I knew who caused this, but he felt too hurt to argue with him, afraid of bursting into tears and making a scene. I grabbed my hat and went out—walking in front of cars and automobiles, not caring what happened—as this was my first disappointment, and being young thought it could not have been worse.

"This was when I first lost faith in women, and that was four years ago. I have had no girl crush since then, but am more happy by myself than with girls of this type. Of course, it is terribly lonesome, but that is to be expected.

"Why on earth does a woman want to see a little, simple-minded girl trying to make her living, get fired? I was never bold, being more shy than anything else—trying to do my best.

"I know from experience that fellows aren't like this. When a new office boy starts on his career, the older men all seem to dote on him. They might quizz him, but never do they intentionally show his little mistakes to the boss, or even to his fellow workers. Those fellows seem to belong to the feminine sex.

"Why is it, when a young girl goes into a large concern to see some one in reference to a position, all the girls titter and make the poor little newcomer feel wretched? Why do girls, when another girl dresses better than they do, start in to question her character, and whisper to each other that there is something pretty mysterious about her—they thinking it best to steer clear of her? Why, when a girl gets a new outfit and is looking quite sweet and kind of beautiful, should the others start to ridicule her and say, 'Did you see that freak that just blew in?' Always loud enough for her to hear? Why do girls, when a fellow shows his preference for another girl, start in to say everything to reflect on her character?

"Did you ever go into a ladies' room in one of the big office buildings down town, around noontime or so? You will most always find a bunch of girls clustered together picking on some poor co-worker. What do you call this? Well, I call it jealousy. It is a very good looking girl they are talking about—you never see them take an insignificant person to pick on.

"When did you ever see fellows act like that? Men are much more true and kind hearted. No matter how funny or how stupid a girl may be, you hardly ever get a fellow to laugh in her face, like the average girl delights in.

"Trusting this letter will not bore you, as it is only a lonesome girl's little heartaches, I remain very truly yours,

B. E."

"I KNOW FROM EXPERIENCE"

"The manager, who was a kind-hearted person, called me into his office one night at closing time and told me he was afraid I was a little too young to handle the work, which was quite heavy. Of course, I knew who caused this, but he felt too hurt to argue with him, afraid of bursting into tears and making a scene. I grabbed my hat and went out—walking in front of cars and automobiles, not caring what happened—as this was my first disappointment, and being young thought it could not have been worse.

"This was when I first lost faith in women, and that was four years ago. I have had no girl crush since then, but am more happy by myself than with girls of this type. Of course, it is terribly lonesome, but that is to be expected.

"Why on earth does a woman want to see a little, simple-minded girl trying to make her living, get fired? I was never bold, being more shy than anything else—trying to do my best.

"I know from experience that fellows aren't like this. When a new office boy starts on his career, the older men all seem to dote on him. They might quizz him, but never do they intentionally show his little mistakes to the boss, or even to his fellow workers. Those fellows seem to belong to the feminine sex.

Lucy's Beauty

How to Hide Beauty Failings

The majority of women know exactly what is lacking to make them beautiful, yet comparatively few exert themselves to correct these deficiencies. They desire the power of beauty is great, and it is only by the use of the right means, which remain closed to the woman who permits herself to appear unattractive, yet never allows a finger to make their dreams of beauty come true. Nevertheless there is one more thing the most impatient of women may call to her aid—drugs.

In the careful selection of clothes any woman can successfully conceal almost any defect. Therefore, it is to be deplored that many women do not take advantage of this never failing means to increase their good looks. A few suggestions may be helpful.

Physical defects are most discouraging when the evening gown is donned. A thin neck, hollow cheeks, thick ankles and large feet are almost always in evidence. Unless good judgment is displayed in the selection of the gown.

The woman who lacks plump arms should avoid the long-sleeved evening gown, and wear one with short sleeve draperies. The present fashion offers a wide selection in gowns of this type. The graceful, scalloped draperies veil the too-thin arms, giving them the appearance of being beautifully modeled, proving once more that the evening gown is a "saving grace" to the woman whose arms are unattractive.

ARMS, SHOULDERS AND ANKLES.

Fashion has also been kind, this season, to the woman who lacks a perfect pair of shoulders, a well-formed neck and a beautiful face. The evening gown is blessed with a faultless pair of shoulders and a beautiful neck. Surely almost any woman may well choose a gown of this type, rather than one whose low-cut décolletage brings her defects into greater prominence.

It is a more difficult problem to conceal thick, clumsy ankles at the present time, but rumors are afloat that skirts of evening gowns are likely to extend to the ankles. The "instep" of many women will continue to prefer the short skirt which exposes the ankles.

It should be remembered that all-black foot gear make the feet appear smaller and the ankles less heavy. Though your taste may incline you toward the slipper and hosiery, you should pass them by.

Now that slipper ornaments have returned to fashion, large buckles of cut steel or brilliant will not only add to the beauty of your feet, but will also detract from the size of your feet. The woman whose ankles are slender and graceful will find this a most desirable feature.

AIDS TO OTHER DEFECTS.

Hair with brims faded with becoming color, should be the selection of the woman whose skin is parchmentlike in hue and texture.

Defects of the figure may be concealed by choosing frocks with good lines. The too-stout should be partial to long unbroken lines and simplicity of style and trimming. The too-thin may safely lean toward draperies, full tunics and frills and ruffles.

The woman who doesn't take advantage of fashion's efforts to aid her to conceal her defects is foolish indeed.

Doty Puzzle

Passenger pigeons travel in tremendous flocks searching for food. Trace forty-four dots and you'll see one.

Draw from one to two and so on to the end.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulberry cocoon oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulberry cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Advertisement.

First Airplane Mail for This City Arrives

The first airplane mail letter to reach Oakland has been received by Everett Hill, 98 Pearl street. It was mailed in Washington and was marked "By Aeroplane via Philadelphia," just as one might expect a letter to be.

In the national drive which placed Oakland so far over the top in Red Cross gifts, the Ebell auxiliary collected \$2,942.50 to the general fund.

Marin Plans Great Military Celebration

SAN RAFAEL, June 13.—Led by Under Sheriff Charles A. Reedling, a committee of business men here has arranged to bring D Company, 159th Infantry, stationed at Camp Kearny, home for the Independence day celebration to be held here under the direction of the Marin county chapter of the Red Cross. The plans for the celebration include military drills by D Company, singing and reciting, an automobile parade, dancing, and a country fair for the benefit of the Red Cross. Almer M. Newhall is chairman of the general committee on arrangements.

Girl's Bedtime Story

"Ding-dong!" rang the bell on the front door of the hollow stump bungalow, where Uncle Wiggly Longears, the wily rabbit genius, lived.

"Uncle Wiggly is in," she said, "but I hardly think he can come out to play with me. He is next door to being a lady housekeeper, went to open it. On the stoop she saw Jackie and Peete. 'Is Uncle Wiggly in?' asked Jackie. 'Can he come out?' Peete wanted to know.

"Of course," said Jackie, "but I hardly think he can come out to play with me. He is next door to being a lady housekeeper, went to open it. On the stoop she saw Jackie and Peete. 'Is Uncle Wiggly in?' asked Jackie. 'Can he come out?' Peete wanted to know.

Ruth is Small Hen with Ideas of Large Eggs

Ruth is a small, unpretentious hen, but she has large ideas when it comes to doing her all in behalf of reducing the cost of living for her countrymen.

Ruth is a Rhode Island Red or brown Leghorn, and does not care, but she does know that Ruth is a willing laborer, and that her eggs are large.

The other day Ruth extended herself and Mrs. Mannetti found in the nest an egg that measures seven and three-eighths inches by eight and one-eighth, and weighs four and one-half ounces.

"Ruth is no hard-boiled egg," avers Mrs. Mannetti.

Step Lively! Corns Quit with "Gets-It"

The Great Corn-Loosener of the Age. Never Fails. Painless. Watch my step! What's the use! I go along 'right safe' without corns, even with corns, because I use 'Gets-It,' the painless, off-like-a-banana-peel corn remover. I tried other ways, failed, until I used 'Gets-It'.

I was blue in the face and red in the toes. No more for me, 'Gets-It'! It never fails. Touch any corn or callus with two drops of 'Gets-It,' and it's gone. It's so easy to use, it's able to stop cutting corns, making them bleed, wrapping them up like packages and using antiseptic ointments and salves. It removes any corn clear and clean, leaving the toe as smooth as your palm. You can wear your new shoes without pain, dance and be frisky on your feet. It's great to use 'Gets-It'.

'Gets-It' is the guaranteed, money-back corn-remover. It's the only sure way, costs but a trifle at any drug store. Write to E. Lawrence & Co., Chicago, Ill. Sold in Oakland at all stores of The Owl Drug Co.—Advertisement.

Corns Simply Can't Stop us, We Use 'Gets-It'!

ANOTHER FEATHER IN CALIFORNIA'S CAP

MY DEAR MRS. HOUSEWIFE: You who are the homemaker, the dispenser of the family income, how are you making out these days in your duel with your persistent antagonist, old H. C. L.?

Are you holding your own, and, maybe, getting a little the best of it; or are you feeling at a disadvantage, a little discouraged—missing some of the tricks?

Are you being a good caterer and cook to your homefolks and yet living up to the requirements of the Food Administration without undue wear and tear on your conscience and your purse?

In the single item of milk, for instance—

Have you made any domestic economy progress; or are you running along in the same old way, depending on the coming of the milkman, grumbling at the bill—and trying to solve your wartime milk problem by cutting down your supply as the price goes up?

Learn the new way—the better way

Why go along in this old way when there is a way of having as much or as little milk as you require, milk always on hand and of a kind that you can depend upon to be sweet when you want it?

While the Food Administration is adjuring you to use home products in order to relieve the railroads, why not as a loyal American (as well as a provident housewife) take a look around and see what your own State is providing you with?

Do you know that the best, cleanest, purest, richest milk comes straight from the cow to the kitchen right here within the borders of California; and that as a dairy product, a kitchen necessity and a table luxury it is unrivaled?

This is so—another feather in California's already full-plumed cap! Right up the coast, in Humboldt County, there is one of the finest dairy sections in the world. Its richness and tremendous importance to the State, and especially to this city, whose constantly increasing population must be fed, is but now being demonstrated through the—shall we say adventuring?—of Libby, McNeill & Libby into this Nature's wonderland of California.

A land of milk and honey

They have a regular Land of Canaan up there in those broad, rich and abundantly watered pasture lands that stretch between Eureka and the redwood belt that climbs the Coast Range; a land flowing with milk—and the honey waiting in the flower cups for the bees to gather it.

It's a veritable health resort for the cow—with the same mild, even coast climate that we enjoy here in Oakland, but sheltered from the wind; pure, sparkling water from the streams that flow from the mountains, and lush green feed in abundance for grazing, in the pastures, ten months in the year. It is a cow paradise, as you can see for yourself from the sleekness and placidity of the pedigreed herds dotting the beautiful landscape.

When a cow has all this—cows react to environment, you know, and poor conditions mean poor milk—so, when a cow has all this balminess and abundance that the Humboldt County pastures afford, she naturally is at her best.

Then, when you put the very finest cows that science can produce on pasture lands such as these, give them the best care, and handle their output with all the skill and intelligence that Big Business can command—why, you should have what the Chinese "boy" on a Pacific liner calls a "first chop" product.

Bringing Humboldt's finest to you

And that is exactly what Libby is giving you from their evaporating plant at Loleta, in Humboldt County.

This big enterprising firm has done much to show us what can be done to feed the world well—hunting out the best fruit-growing districts and setting up their canneries there to make these fruits available to everybody; going to Hawaii to can the wonderful pineapples for the epicurean world; to Alaska to can the Alaska salmon.

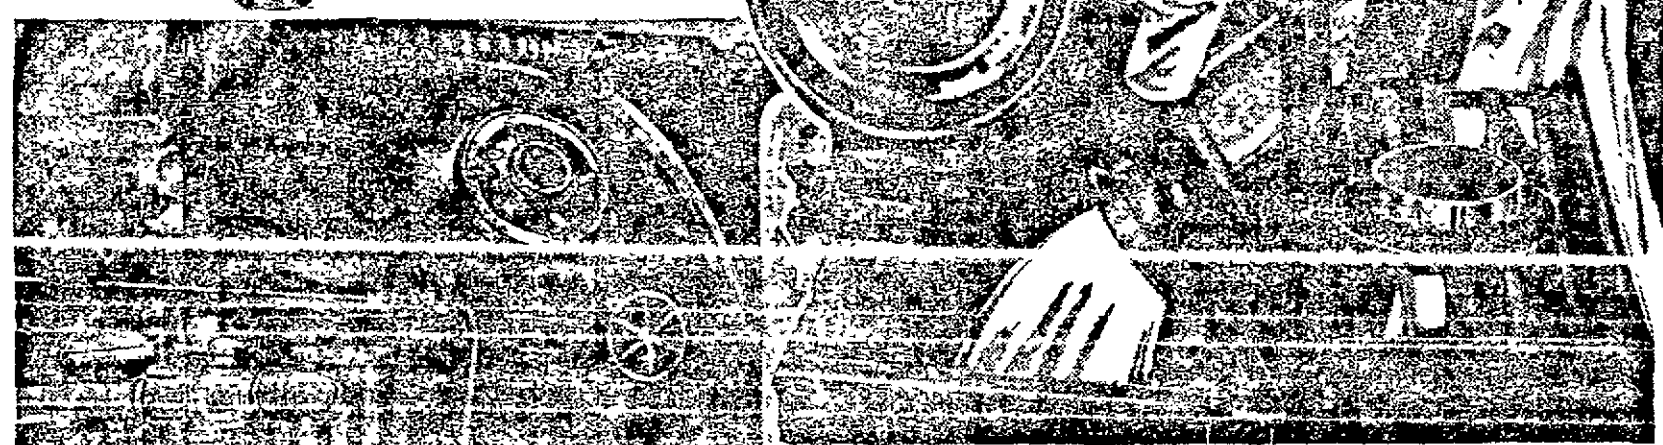

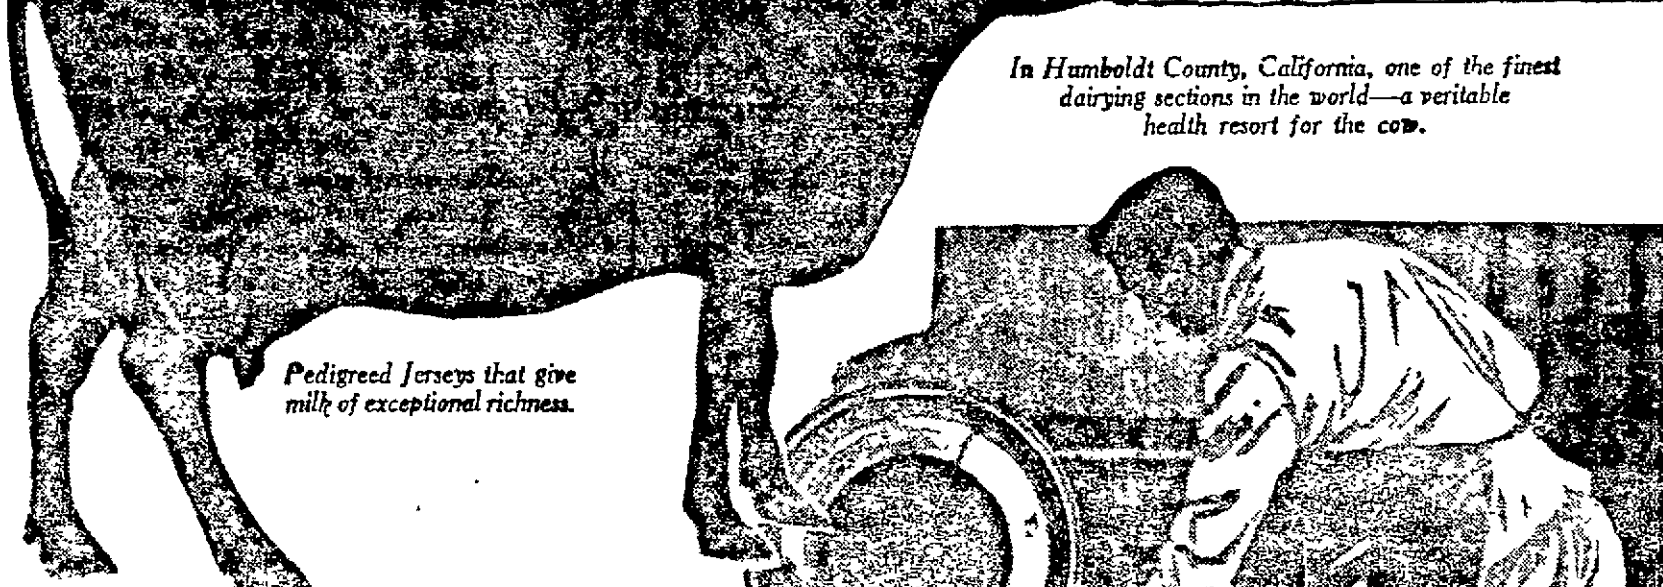

So when you hear of them going into Humboldt County as the most desirable place to set up a plant for the packing of milk, it is what might be called a "safe bet" that the best dairy lands are there.

They set up the best plant, with the best equipment that modern invention makes possible, in order to turn out the very best product that can be put on the market.

Pedigreed Jerseys that give milk of exceptional richness.

In Humboldt County, California, one of the finest dairying sections in the world—a veritable health resort for the cow.

First the milk is weighed, inspected and tested to see that it meets the Libby requirements.

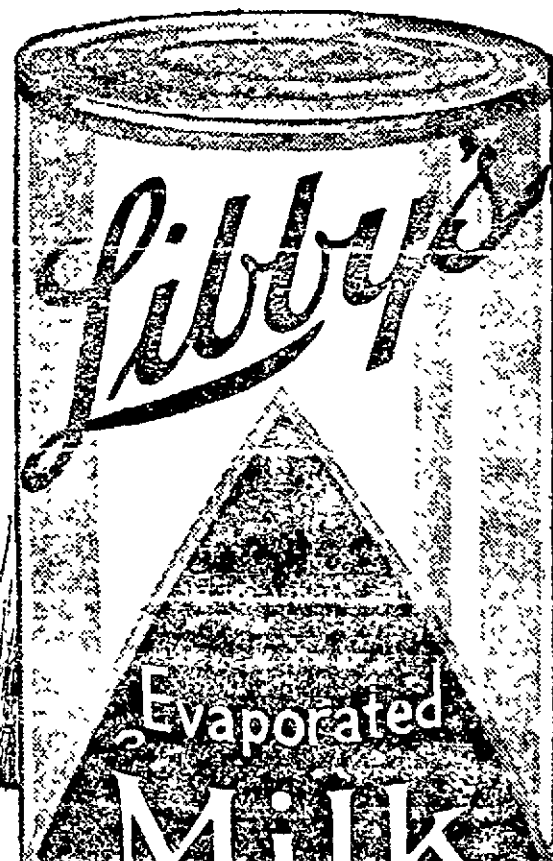

The great vacuum evaporation kettle, in which 50 per cent of the moisture is extracted.

The chemist who tests every lot.

Going into the sterilizer, to make the milk safe and insure its keeping under any conditions.

See what an added flavor it gives to all your favorite dishes.

If you could only see it

A visit to the Libby plant at Loleta—right in the heart of the finest dairy section—is an education in modern industrial efficiency.

How many of us know with any certainty where our milk comes from, whether or not from healthy cows? What does the consumer know of the sanitation of cow barns and dairies? How sure can he be, no matter what price he pays for milk, that it is clean and wholesome and sweet and suitable for human consumption when he gets it?

If you knew where it came from and could trace its entire progress from the cow to your kitchen, and never find a flaw in the handling of it—this would give you confidence in it, wouldn't it?

This you can do at the Libby plant at Loleta, or at the movies, where a picture of the evaporating of Libby's Milk is being shown in that government series of "Food for the Allies."

First of all, you will see those wide, well-watered Humboldt County dairy lands. Blissfully occupying them you will see the fine herds of pedigreed cattle—the pretty, fawn-colored Jersey. The Jersey being the chosen breed for Libby's Milk because their milk is exceptionally rich in butter fat.

This milk is all from inspected herds—herds that are pastured, housed, fed, groomed and milked according to the most sanitary and up-to-date methods.

The modern way

No longer does the rancher bring his milk to market in any old can, with the lid sliding off and letting in whatever may be encountered along the road; nor does he take the empty can back with the "leavin's" in them to taint the next day's milk. They see to that at the Libby plant.

The rancher brings his milk in sterilized, tightly closed cans to the evaporating plant, and he delivers it immediately after milking. Here it is weighed and inspected and tested to see that it comes up to the butter fat requirements and is free from impurities.

After the cans are emptied they are not returned to the ranch out of hand, but are first subjected to a thorough washing and sterilizing process. In this way one of the greatest opportunities for the contamination of milk is eliminated.

The milk is put into great glass-lined storage tanks, and is then subjected to heat in a great vacuum kettle that evaporates about half its moisture. In this way the whole food content of the milk is retained and only part of the water removed, and what goes into the can is nothing more nor less than pure milk with all its constituents, concentrated to half its bulk, and consequently of about double richness.

After the evaporating process, it is chilled by flowing over ice cold cooling pipes.

The filling of the cans is done by automatic machinery—hands never touch the milk at any stage—the feeding can connecting with the packing can, stopping just long enough to fill the packing can, and promptly moving on its way to fill the next one.

The cans are then sealed, and every can tested for leaks by immersion in a big tank.

Just pure, rich milk

Up to this point the only change in the milk has been the reduction in bulk caused by evaporation. In all other respects it is fresh milk, merely richer because more concentrated.

But now, after the sealing is perfected, comes the sterilization, to make it safe and insure its keeping. Hundreds of cans are put into an immense sterilizer, so arranged that it can be revolved and every can thus evenly subjected to the sterilizing heat.

The labeling also is mechanically done, and with bewildering and magical speed the finished product is packed into cases; and on the same day that the milk comes from the cow it is ready for shipment to market, to go anywhere and keep any length of time.

It has been tested for butter fats and impurities by chemical analysis; it has met no risks of contamination from unclean hands or containers; it has suffered no deterioration from periods of waiting and exposure; it has had nothing added to it, and only excess moisture taken from it, and it is ready to perform all the functions of milk fresh from the cow—as pure and perfect a product as human vigilance and intelligence can supply.

Such is Libby's Milk. If you've never used a canned milk you will wonder why when you learn the better results, the convenience and the economy that come with using Libby's.

If you have already learned to use canned milk, try this finest product of the richest dairy region in the world and see what California can do in the way of milk.

THURSDAY, JUNE 13, 1918.

THE FLAG.

Have you ever comprehended what the American Flag stands for? Have you ever thought much about it? Have you conceived any of the reasons why tomorrow, June 14, is dedicated to the flag?

One hundred and forty-two years ago a few women gathered in a New England home, in the same spirit that moves the knitters and Red Cross sewers of today, and made a banner of red, white and blue. It contained thirteen stripes and thirteen stars. Its makers presented it to the colonial soldiers fighting for the independence of their country, who followed it to victory and through defeat to victory again, until the United States of America was the crown of their sacrifice. Yet these makers of the flag had not the opportunity to understand its significance that you have today.

The Flag has grown. From where the Atlantic tides rush upon the sands of the Bay of Fundy with voice of thunder and crest of foam; westward to where the Aleutian Islands stretch almost within sight of the shores of Asia; from Manila eastward to Porto Rico, upon the loom of fifty-three degrees of latitude and ninety of longitude, is stretched the knitted fabric of empires which we call the United States of America. And over it all, in every city and village of the land, there floats the flag of eight and forty stars.

Stand for a moment tomorrow and think well of what the Flag means.

It means that you are a citizen of a powerful and prosperous republic; a republic where no slave's presence dishonors labor; where no freeman's loyal utterances are choked by the hand of power; where no man doffs his hat to another except through the courtesy of equals, and where opportunity offers her skirts to all who have the wit and will to grasp them.

It means that the land of the Flag will not be bruised by any monarch's heel, nor its people bow to any autocrat's will.

It means patience and forbearance in controversies, but suffers no taint upon the honor of the nation, no unexplicated outrage upon its citizens. It means lawful order at home and lawful and honorable dealings with other peoples. It defends the right and champions the cause of helpless peoples aspiring to live as they determine best, so long as they recognize the mutual and universal rights of man.

The Flag means that your sons and brothers and friends are on the fields of Picardy and Flanders fighting that Christian civilization, in which this Republic was conceived, shall not perish from the earth; that the dominion of brute force which Hunic savages sought to raise up over the world shall be broken and destroyed.

The Flag means a new brotherhood among men. For today we twine our beloved banner with the cross of St. George, the tricolor of France, and the white, green and red of Italy, and declare that, with God's help, the grave which the German kaiser has prepared for human liberty shall not be filled.

It means that the Potsdam gang will never sit down amidst the pomp of victory to write the epitaph of democracy. For America's soldiers have bared their breast to the foe and at the head of charging columns are helping to convert the dark hour of the threatened extinction of freedom into the dawn of an immortal day.

Hail to the Flag! Uncover heads before the Stars and Stripes and say with hope and with confidence: "Flag of the brave! Thy folds shall fly
The sign of hope and triumph high."

NON-ESSENTIAL FALSEHOOD.

Chicago bears native misfortunes and misfortunes thrust upon it. In the first category is included Mayor William Hale Thompson, who objected to the visit of Marshal Joffre. In the latter is the public speech of a visitor, a Dr. Lovejoy, who at one time was called the health commissioner of Portland, Oregon. Dr. Lovejoy declared that "the women of America are loafers going about in high-heeled shoes wanting to be entertained by the story of the conflict."

We have yet to hear of any woman being "entertained" by the story of the conflict. As to their being loafers, the latest government report shows that since the beginning of the present year over 45,000 women have been placed in positions by the Fed-

eral employment bureaus alone. This is perhaps less than one percent of the number of women who have taken up useful and helpful work since war was declared. Some of them are wearing high-heeled shoes, it is true, but a great many of the shoes are two and three years old and are taking the place of the new ones that in normal times would have been purchased.

Dr. Lovejoy, public speaker, is not engaged in useful work. He is a non-essential, a luxury in scandal-mongery which may easily be dispensed with. He will not pass muster before the food administration, the fuel administration or the war priorities board. The capital issues committee of the War Finance Corporation would not consider him for a minute. He is a waster of energy, a loafer in the gallery whose chief aim is to cause discomfort to the hard-working actors in the mighty drama. As to the statement uttered in Chicago, it is an unqualified falsehood.

WORK TO BE DONE.

The resume of the shipbuilding and general industrial situation, together with the symposium of views of officials and business men, which THE TRIBUNE published yesterday, again sharply directs attention to the need of immediate and comprehensive steps to capture and conserve all the advantages industrial expansion holds for the east bay district. An extraordinary increase in the population of the east bay cities is in progress now and will reach high tide in a few more months. Shall the communities make ready to receive and retain as permanent householders the new industrial workers? Or shall the new wage-earners be permitted to reside here only temporarily, as they may find chance accommodations, or forced to live and spend their income elsewhere?

News of the important work and plans of expansion of various industrial concerns have been published in this newspaper during the last few weeks. Shipbuilding plants that are increasing their capacity are the Moore Shipbuilding Company, the Alameda plant of the Bethlehem Steel Corporation, the Hanlon Shipbuilding Company and the Barnes & Tibbitts Company. New plants being constructed are the Union Construction Company, the Rolph Company, the Parr Terminals Company and the federal concrete ship plant on Government Island in the estuary.

The most conservative reading of these plans show that 40,000 new workers will be in demand in Oakland and Alameda within a few months. Increases in other industries than shipbuilding make it certain that by July 1, 1919, between 70,000 and 80,000 workmen will be employed in east bay plants. Fifty thousand new workers mean an increase in population of from 150,000 to 200,000—if the workers make their homes and move their families here. Employment of this great army in the shipbuilding and other war industries at war-time wages involve the disbursement in wages alone of approximately \$3,000,000 a week, or over \$150,000,000 a year.

Two distinct and vital problems are upon the community as a result of the government's shipbuilding program. The first is to provide adequate and proper housing facilities and home advantages. This problem consists of two separate phases.

First, there must be provided the homes, the physical structures in which workers and their families live. New home sites must be developed and houses for workingmen must be erected. If private business interests are not called upon exclusively to see that this is done, certainly they must be considered the most important factor.

There must be, as THE TRIBUNE frequently has said, cooperation between bankers, land owners and business men in performing this task. All must look upon the situation through the eyes of public service and civic duty. They must be prepared to count as a part of their prospective profits the indirect advantage of building greater communities. Finances must be provided to defend the opportunity for the fulfillment of the dreams and the faith that have been the lot of every man who has made his home on the continental side of San Francisco Bay. Plans must be worked out by the financial, business and property interests. They may be conceived in the hope that the local and federal governments will cooperate with and aid them wherever possible.

The second phase of the housing problem calls for more serious attention from the municipal governments on the east bay shore. Large increases in population call for extension of public service—schools, recreation facilities, police and fire protection, extensions of streets, sewers and of the services of public utilities. The public health department must prepare to perform added duties. The high standards of public service which have made the east bay cities famous as home centers must be maintained with the added prestige of industrial centers, soon to be enjoyed.

The other problem is related to the after-war program for foreign trade. Chairman Hurley of the Shipping Board has stated that the present program calls for 5,700,000 tons of merchant shipping under federal control by the end of 1918, over 13,500,000 additional tons to be completed in 1919 and a total of 25,000,000 tons in 1920. When released from war service this great merchant marine will serve commerce in the Pacific as well as the Atlantic.

Development of our harbor facilities, therefore, is the second problem that must be solved quickly if we are to secure our legitimate share of the ocean commerce of this port. All the great ports of the country sense their opportunity and are preparing to compete in the shipping trade by giving service to ships and shippers.

The time for big work, unselfish work, coordinated work, is at hand.

NOTES and COMMENT

Masters of Dancing, in convention assembled, have tabooed hugs, trots and dips. May we suggest the Marine Zip, and Hun Back-Glide as substitutes.

A Cleveland court decides that a woman has a perfect right to "powder and paint and wear short skirts." And there lives no mere man who is going to run afoul a contempt of court charge by ridiculing the decision.

Pennsylvania farmers who hoarded spuds to await higher prices were swindled out of the supply by cleverer crooks.

An English boy with an empty gun recaptured two escaped German prisoners, furnishing proof that the sight of a weapon sets on the Hun nerves.

President Wilson's autograph brought \$1,000 at an auction. We know of a resident of Potsdam who would give a lot more than that if the same signature wasn't attached to certain disturbing documents.

The announcement that cottage cheese will win the war simply serves to impress that food will turn the tide of battle—food for riveting guns, food for cannon, food for thought and food for the boys over there.

His wife led him a cat and dog life, according to a San Francisco patrolman who has sued for divorce. Well, let's see. The dog has the most comfortable place by the fire, chases chickens without fear of the police and doesn't have to wear white collars, these dog days. The cat is petted and stays out all night. No grounds here for divorce.

It's deucedly like spring fever, this dog-day feeling of ennui, only there are flies to swat and an inclination to indulge in the pleasantly, "Is it warm enough for you?"

The former May Yohe returns to San Francisco and the event receives scant notice on an inside page. War has made a change in news-values and to figure on the first page woman must get into the battle heroine class or break the knitting record.

An Oakland woman admits in court that she waxed profane when her husband choked her. Her excuse is accepted if she'll tell how she articulated with a hand closed around her throat. Of course, being her husband he may have been gentle about it.

Berkeley's woman burglar who has a penchant for finery and cigarettes belongs to that extinct class, feminine under, that existed prior to April 6, 1917.

Redwood City got blue from eating paint-covered rags and her owner sued. If it had been a goat there might have been a chance of making the jury believe it.

One-half inch of abalone tied up a jury at San Rafael. Yes, the fish was fresh. There arose a dispute over the size of the animal, that's all.

The Department of Justice ordains that deputy marshals can perform the duties of bailiffs and criers without over-exertion. Another crop of political plums has turned out prunes.

The news that bones of a prehistoric mammoth have been found in Oregon serves to remind that another great outdoor sport belongs to the before-the-war period. It used to be a dull day when they didn't uncover an overdone skeleton or two.

Following the arrest of 593 persons and the accumulation in fines of \$5,000 a San Francisco detective is relieved of command of the Chinatown squad. Comment reserved.

Redwood City's airplane elopement has complicated into the divorce court, proving that even heaven-made marriages may reach an earthly end.

SPIRIT OF THE STATE PRESS

George E. Goodwin of Washington, D. C., civil engineer of the national forestry service, and Walter Fry of Three Rivers, supervisor of national parks in the Sierra district, have finished a survey of General Grant Park and given permission to the concessionaires there to enlarge and rearrange the eating house and camp grounds. Chief of the improvements will be a big swimming pool, which will be sunk in the ground between two huge boulders. Another innovation this year will be the removal of the tents from the cleared ground around the store and dining hall into the timber itself, while the dining room will be greatly enlarged, new kitchens built and the capacity of the camp store trebled.—Fresno Republican.

Principal W. M. Hyman presented a silver cup to the senior class of the Woodland High School, as a result of a spirited contest for the sale of Third Stamps. A total of \$475.28 worth of stamps were bought by the four classes. The final record was: Seniors, \$117.23; Juniors, \$127.11; Sophomores, \$117.23; Freshmen, \$62.53. Principal Hyman announced that the faculty of the school purchased \$800 worth of stamps.—Woodland Democrat.

We rise again to protest! Dr. Newo Newt New has lost his appeal, and has gone to prison. To be sure, Dr. Newo was a thief and a fraud. But religious liberty must be respected, and Newo had a religion under which thievery and fraud were enjoined as virtues it commended to himself, and condemned as sins only when committed by others. Also, he led women astray. But he did it in the name of God! Love, enjoined by his religion. And he was a quick and a public nuisance. But his religion enjoined these things, too. And shall a mere majority, which believes in other religions, some of which may not be infallible, either, arbitrarily determine that these novel doctrines which Mr. Newo says are religious, are not really so?—Fresno Republican.

POTSDAM SOCIETY NOTE—OWING TO THE IMPASSABLE CONDITION OF THE ROADS, THE CROWN PRINCE AND PARTY HAVE CANCELED THEIR PROPOSED JOY RIDE TO "GAY PAREE" THIS SUMMER.

MARRIED MEN IN DRAFT

To the Editor of The Tribune:

There is a rumor around that no married men are drafted and that the government cannot take a married man from his wife; that all the married men taken in the draft are not lawfully married to their wives. Please print in your paper the truth about this matter, for the reassurance of the wives of drafted men.

CHARLES REID.
Oakland, June 12, 1918.

The selective draft law passed by Congress does not exempt married men from military service. It provides that all men between the ages of 21 and 31 years of age may be conscripted for service in the national army in quotas as from time to time authorized. Classifications of the men of draft age who have registered and the allowing of exemptions are purely matters of administrative discretion, and not provisions of the law. Under the rules of the War Department exemptions are not allowed unless claim of exemption is first filed with the draft boards. Under the original rules, a married man whose wife and family was dependent upon him for support could claim exemption, but the claims were not always granted, especially in cases where it was shown that the wife had independent means of support. Under the present rules a married man may claim deferred classification and be placed lower in the list of eligibles than Class I. But thousands of married men have refused to claim exemption and have been drafted into the army. Very few men who were married after the terms of the draft bill and the intentions of the government were known but before the law was signed by the President and the rules promulgated claimed exemption on account of their wives. They did not wish to be charged with entering into "slacker" marriages. Whoever circulates the malicious lie referred to above by Mr. Reid should be reported immediately to the United States district attorney, San Francisco.—The Editor.

TODAY 20 YEARS AGO

Ben F. Woolner, captain, and Clarence Crowell, secretary of the Blackstone baseball club, accepted the challenge of the Aesculapian baseball club to contest honors. Dr. H. G. Thomas was president of the Aesculapian club.

Among the residents of this city and Alameda who camped in the canyon in the Brower place back of Elmhurst were Mr. and Mrs. W. E. Frost, Frank Frost and Will Frost, Mr. and Mrs. Clarke and family of Eighth street, and Dr. Thomas Carpenter and family of Alameda.

General Otis, in charge of Camp Merritt, was asked to send two regiments of soldiers to the city to take the here on the Fourth of July.

Among those who embarked with the hospital corps of the Fifth Infantry were Private Thomas J. Thompson, George C. Taylor and G. McCarthy of the Reliance club and J. M. Pierce of Berkeley.

THE WAR BOOM IN TEXAS.

The 1918 wheat harvest began Saturday in Denton, Cooke and Wise counties, Texas. The sound of the reaper is as truly a sound of war as the rattle of the machine gun. The Boche is being beaten in the great grain fields of America.—New York Sun.

THE JESTER

A Pulpit Punster.

The Sinn Fein movement is responsible for the worst pun of the decade. A priest of Dublin began his discourse as follows: "There have been many eras in Irish history. We have had the Pagan era, the Christian era, and now we are having the Devil era." (De Valera.)

Easily Won Reputation.

Betty—What a delightful conversationalist Jack is.
Belle—What did he talk about?
Betty—Me.—Boston Transcript.

Time Limited.

BIX—What did you want say to you when you got home at 4 o'clock this morning?
DIX (wearily)—Say, old man, I've got some work to do today.—Boston Transcript.

A Scorching.

With deep scorn in her eyes the haughty girl swept toward the door. "You need not fear that I shall reproach you with your perfidy," she said. "I waive all claim, sir, to your miserable, fickle and undesirable affection."

"Whew!" muttered the crestfallen young man, as he was left alone with his thoughts, "that was a hot wave, all right."—Exchange.

EAST BAY TO FLY FLAGS ON EVERY HOME

Every private house, every public building and every building of semi-public nature is to fly the American flag tomorrow—National Flag Day.

While every fraternal and patriotic organization in Oakland is taking an active interest in seeing that there is a proper observance of the day, the War Service League has been making a campaign to the purpose that the day see the greatest display of the Stars and Stripes ever made in Oakland. To the effect that the proprieties be observed the league has made public the regulations approved by the United States Government for the proper treatment of the flag, which are:

"The flag should not be hoisted or displayed outdoors before sunrise or allowed to remain out after sunset.

"When the flag is raised at ceremonies all present should stand at attention and salute with the right hand raised to forehead over right eye.

"When the flag is passing on parade or review the spectator, whether man or boy, should uncover his head and stand, or if sitting, should arise and uncover.

"When any other flag is displayed with Old Glory, our national flag must always be on the right or above.

"The flag may be displayed outdoors any fine day, not necessarily a holiday. The flag never should be used as a cover for a desk, box or table where anything may be placed on it.

"The flag never should be placed below a person sitting—always above.

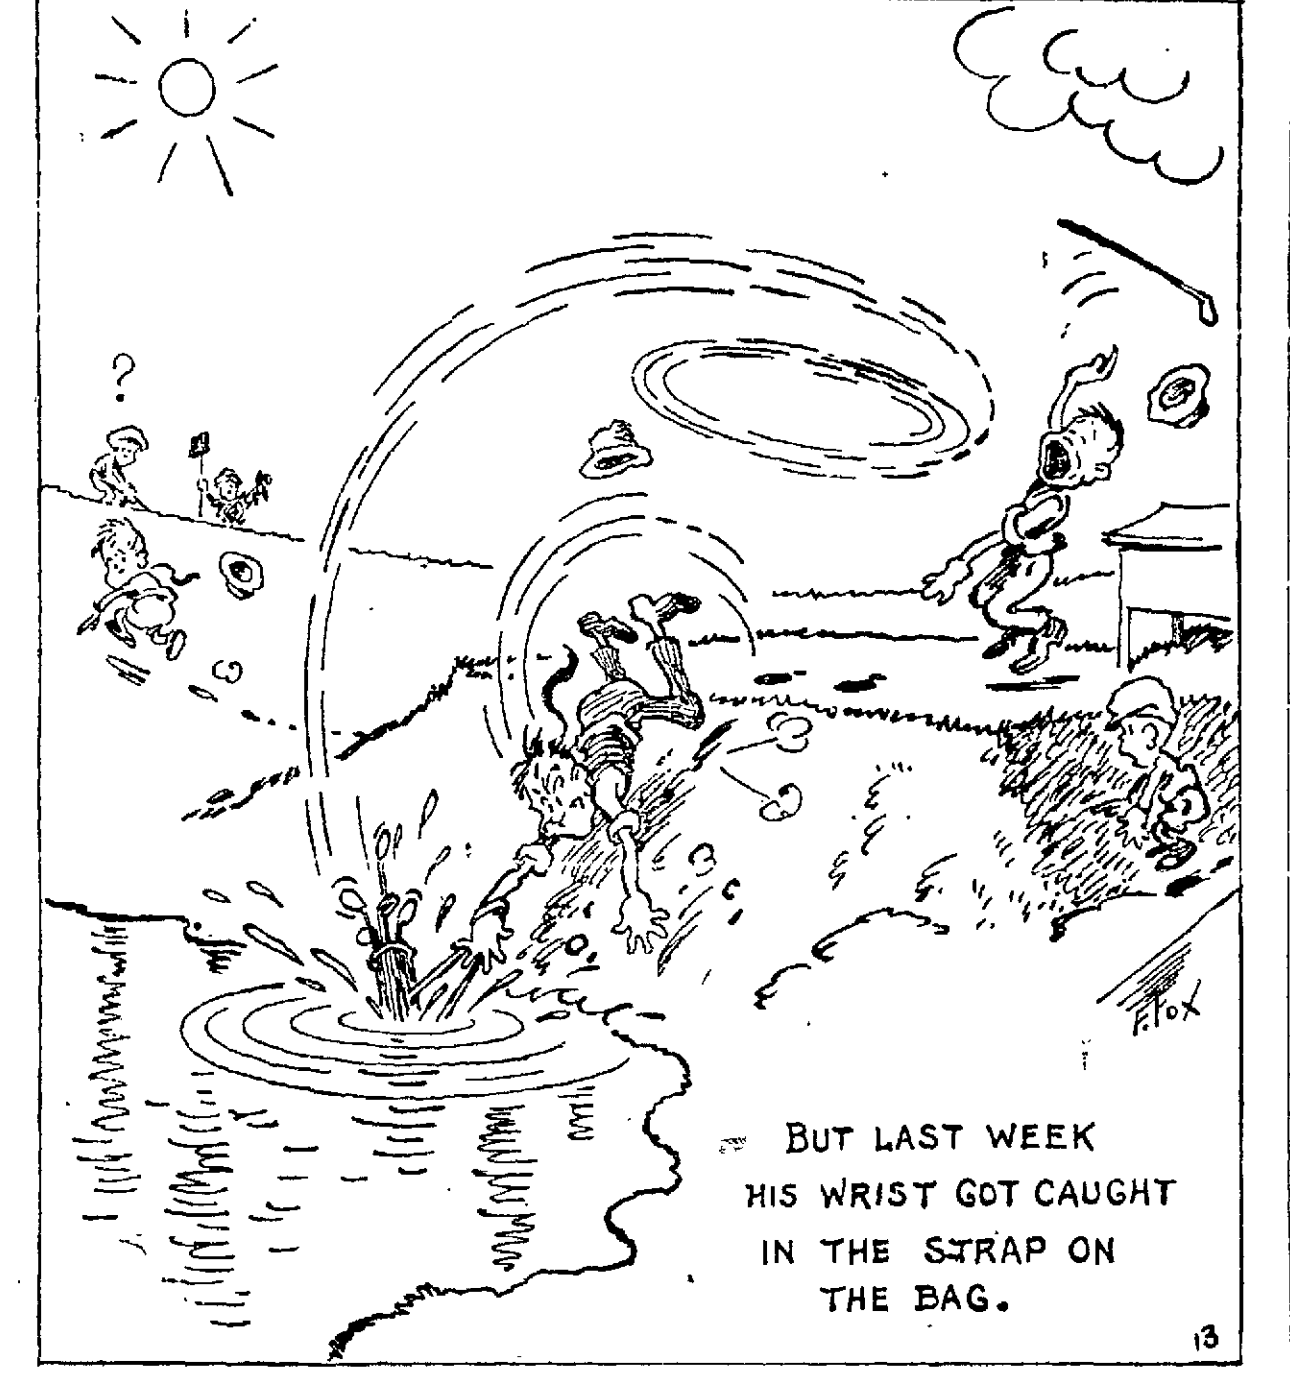

"The flag never should be placed upside down.

The most pretentious celebration of the day in Oakland will be that sponsored by the Elks in the Civic Auditorium in the evening. There will be a program of patriotic speeches and singing.

The east bay parlors of the Native Sons and Native Daughters of the Golden West have completed arrangements for the "Flag Day" exercises which will be held tomorrow evening in Majestic Hall, 431 Twelfth street. The parlors have invited the members of the Grand Army of the Republic, the Ladies' Relief Corps, the Veterans of Foreign Wars of the United States, the Merchants' Exchange and the Chamber of Commerce and an appropriate program will be given.

Special stress will be laid upon the need of patriotism at this time above all others. Harry C. Williams heads the general committee, with J. J. Dignan, secretary; E. F. Garrison, treasurer, and Miss Eva Pine, assistant secretary.

About once a week the terrible-tempered MR. BANG heaves his golf clubs into the water hazard after his ball.

FAMILY SEEK IN VAIN FOR MISSING MAN

Police search is extending today in widening circles for William E. Barber, for the past 32 years cashier of the Southern Pacific Company at San Jose, who dropped from sight Tuesday in this city and has not been heard from since. Company officials declare the missing man's accounts are in good shape.

To his wife Barber mailed a letter and a power of attorney to close up his affairs. In his letter, which he had mailed in San Francisco, he said: "My Loved Ones: Please do not make any effort to find me, for it will be no use. I have failed as a husband and as a father and the only thing left is for me to go. You will never see me again. So good-bye and do not worry. I love you all."

The power of attorney was sworn to before Attorney Ralph E. Stocker of this city. Barber appeared before Stocker on Tuesday afternoon, identified himself and said he wished to make over a power of attorney to his wife. He declared he was afraid he might die at any moment.

Barber's wife said this morning that her husband has been despondent ever since the enlistment of his two sons, William and Lawrence Barber, in the army, the circumstance seeming to prey upon his mind.

The Barber family is widely known in San Jose. There have been no family differences. Besides the two sons, William and Lawrence Barber, in the army, the circumstance seeming to prey upon his mind.

Barber's wife said this morning that her husband has been despondent ever since the enlistment of his two sons, William and Lawrence Barber, in the army, the circumstance seeming to prey upon his mind.

ALAMEDA BOY IS CAPTAIN IN "SPARKS" CORPS

ALAMEDA, June 13.—William Pettis St. Sure, son of Judge and Mrs. A. F. St. Sure, now at the government radio school at Harvard, has been made captain of his company of fellow radioists. He is captain of Co. D. The recognition accorded the young Alamedan comes after only five days' preliminary training at the Marshall radio station, Alameda.

The government has taken over Harvard college and there are 5000 young warriors at the great seat of learning. The young men are in various military activities which will speedily fit them for active war service.

ALAN NICHOLS, LOCAL FLYER, IS MISSING

Alan Nichols, prominent Stanford man and member of the first Stanford ambulance contingent to go to France, is missing, according to dispatches reaching Oakland from the War Department.

Nichols was one of an Escadrille party sent out on a bombing expedition. The fact that Nichols is listed as missing is taken to indicate that the War Department believes that he may have been taken prisoner, as it generally is possible to determine when a machine is sent down a wreck.

Arthur Blumenthal of Wilmington, N. C., and Harold Saxon of Washington, were with Nichols and are also listed as missing.

The missing aviator is the son of W. H. Nichols, superintendent of the Palo Alto school, and a brother of Jack Nichols, who went to France in the same first Stanford unit, doing duty as an ambulance driver.

After entering the training school for aviators published exclusively in The TRIBUNE, in which in graphic style he described the great war as seen from an aviation training camp, where the instructors varied the monotony by taking the students on chase after the sun go down again after it had set.

In one of his letters he told of his first experience with an aeroplane, which is most interesting in view of his achievements as an aviator fighting the battles of his country high above the clouds.

The young Stanford student signed up for instructions as a navigator of the air in the French Bleriot school and finally getting out to the training field. His first effort at control of a machine was in an old worn out Bleriot that had had its wings clipped so it couldn't rise from the ground, but could only run along with its tail high in the air. His task was to steer it straight, and he avowed that it was no cinch. But he was game and didn't want to appear as an over-cautious person, so he opened his motor wide up and went down the field with all the speed he could develop. Near the other end he said he pulled a wheel of bolts, by which he meant that he skidded and turned over, a very common experience with beginners. After they got him straightened away he came back, he said, with far greater caution.

SEEKS DIVORCE AFTER 44 YEARS

Charging Intemperance, Mrs. Eva Leeman today filed suit for divorce from her husband, Lewis Leeman, whom she married forty-four years ago at Stockton. The complaint alleges the defendant is addicted to the use of liquor to such a degree as to constitute extreme cruelty toward the plaintiff.

David H. Pierce is stung by his money man, his wife wants it, but liberal with his relatives, according to the complaint of his wife, Mrs. Louise G. Pierce, who has filed suit for divorce. They were married in 1910. She asks custody of their 4-year-old child and \$75 a month alimony.

Octavia Jones charges cruelty against Louis Jones, whom she says broke a plate over her head and threatened to kill her.

R. F. Stratton says in his complaint for divorce that his wife, Crescent Stratton, urged him to go to sea so she could be free, and that she wants to live in an apartment while he likes a cottage.

Heney Announces His Platform Like Hayes on Liquor Stand Fickert Also States His Policies

Things political took a spurt yesterday. Francis J. Heney formally announced his platform before the Young Men's Democratic League of Los Angeles. He also declared in favor of the Rominger bill, in this respect taking the same position as J. C. Hayes and not going so far as Governor Stephens, who has gone on record for a bone dry state. Both Heney and Hayes evidently intend to bid for the support of those engaged in the wine industry, as the Rominger bill is favored by many grape growers.

Last night Heney announced his platform for the Republican nomination for governor. "Americanism, as Opposed to Anarchy," is his platform. On the wet and dry issue he declares that "the liquor question will come fairly and unconditionally before the electorate of this state in the November election. I pledge myself to enforce without favor or stint whatever the people of the state of California may enact in this regard."

HENEY STATES POLICY.

Heney said he favored the Rominger bill because it would not only close every saloon in the state, but would create state regulation of the liquor traffic by which beverages containing high percentages of alcohol would be barred from manufacture or sale.

As to the federal bone dry constitutional amendment, Heney said he did not purpose to advocate or oppose its ratification.

Heney declared in favor of legislation by which returning soldiers can be given an opportunity to develop land. He said the time had come to "vitalize" a provision of the state constitution that "the holding of large tracts of land uncultivated and unimproved by individuals or corporations is against the public interest and should be discouraged by all means not inconsistent with the rights of private property."

Heney also endorsed completion and development of the state highway system; flood control and harbor betterment; forest conservation; development of water power, including that of the Colorado river, and the construction of an all-American irrigation canal for the Imperial valley by cooperation between the state and federal government; a "vitalized State Council of National Defense," the national suffrage amendment; greater recognition of the public service of women; enactment of a federal preference law and President Wilson's administration.

FICKERT'S PLATFORM.

Fickert's declaration is as follows: "To the people of the state of California: I pledge to you my devoted adherence to the following principles: "1. Our first duty to our country and ourselves is to win the great struggle in which we are engaged. "To accomplish this we must root out the anarchists and the I. W. W. "2. I have first-hand knowledge of the principles and activities of these well-organized and enemy-financed anarchistic organizations in our state and nation. "We know that these organizations, not content with circulating reasonable propaganda and inciting sabotage, are most active in committing wholesale murder, dynamiting munition plants, burning farm buildings and homes and destroying crops, orchards, vineyards and livestock. "3. In my long fight against the despicable traitors to our state and nation I have been subjected to a campaign of most vicious slander and calumny, which has served only to strengthen me in my determination to crush them. "4. It was in an small part due to my fight that the I. W. W. throughout the United States have been brought to the bar of justice. There the information was first secured of the infamies perpetrated by the mem-

Editor Killed by Temperature of 122

NEEDLES, June 13.—B. M. Knutson, publisher of the El Segundo Herald, overcame by record-breaking heat, while on his way to Denver by automobile, died today. Tuesday government records showed a maximum temperature of 122, the highest in 15 years. Yesterday, the highest was 118.

Police Seek Author of "Liberty" Letters

SAN FRANCISCO, June 13.—Officers of the police neutrality squad are endeavoring today to trace the author of numerous threatening letters signed by the Knights of Liberty and circulated throughout Northern California, following the seizure last night of a typewriter alleged to have been used by the writer.

EMPLOYEES' DANCE.

The Red Cross Club of the millinery department of Maymont & Upright Company will give a dance for the benefit of the Oakland Chapter of Red Cross tomorrow night in the ballroom of the St. Mark Hotel. The committee in charge consists of Mrs. Bonnie Stenkel, chairman; Ida Ahl, Mildred Sawtelle, Lillian Snelling, Martha Heyman, Marie Ahrens and Goldie Snide. Admission will be 50 cents a couple.

U. S. Will Seize Miller Estate

Held by the United States courts to owe the government \$6,385,524.83 as income and inheritance tax, the \$400,000 properties of the Miller & Lux estate is facing confiscation by the government.

Collector of Internal Revenue Justice Wardell expects to move late today to the federal court to have a decision by Federal Judge M. T. Dooling dismissing the suit brought by Mrs. Nellie Miller Nickel and J. Le Roy Nickel to restrain the collector from seizing the property.

Mrs. Nickel, daughter of the deceased, and her husband have refused to honor the demand of the government collector, claiming that the deceased had merely a modest amount of money at the time of his death, \$20,000. Anticipating difficulties over his properties, he had made a trust deed years before and had turned over all his holdings under a deed of trust, and Mr. and Mrs. Nickel were the trustees. This was done in 1913, and from that date they claimed to have been in possession of all of the Miller holdings.

There have been several federal court decisions holding this position untenable.

Husband Out Late; Wife Wields Knife

SAN FRANCISCO, June 13.—As a result of going home in the "wee sma' hours of the morning" James I. Whearty, a stevedore, is severely wounded today and his wife, Mary, is under arrest charged with assault to murder. During a quarrel over the lateness of her husband's return, Mrs. Whearty is alleged to have slashed him with a carving knife.

First Showing U-Boat Raids On the Atlantic Coast at Kinema Theater Today

Fatty Makes a Crackerjack Revenue
Offer in His Burlesque on Kentucky
Mellorhammer; "Moonshine" on
Same Program.

Continuing at the Kinema for the rest of the week is a program which must needs please every one. For, first of all there is the popular Mary Roberts Rinehart's story, "K." and, secondly, a delightful burlesque on that unending source of melodrama, the Blue Ridge mountains, with the supposed still, bootleggers, wild mountain girls with tumbled hair and bare feet etc. It's gotten off by none other than Fatty Arbuckle in what he has chosen, "K." It's hardly still picture—leave it to Fatty to see to that. Fatty even burlesques Monte Cristo's famed method of escaping from his jailers.

As for "K." It tells the story of a surgeon who uses his greatest asset, self-confidence, through one of the nurses on his staff. After losing himself as the "K." he is called upon to perform his operation on his rival, the young escapee doctor who was the only one beside himself acquainted with the operation. There is the climax of "K."

On the same program a trip with Burton Holmes to Samoa and up-to-the-minute news pictures are shown. Shopping mail—news daily from 11 to 1. First showing at Kinema Theater today of U-Boat Raids on Atlantic Coast—Advertisement.

The Parisienne

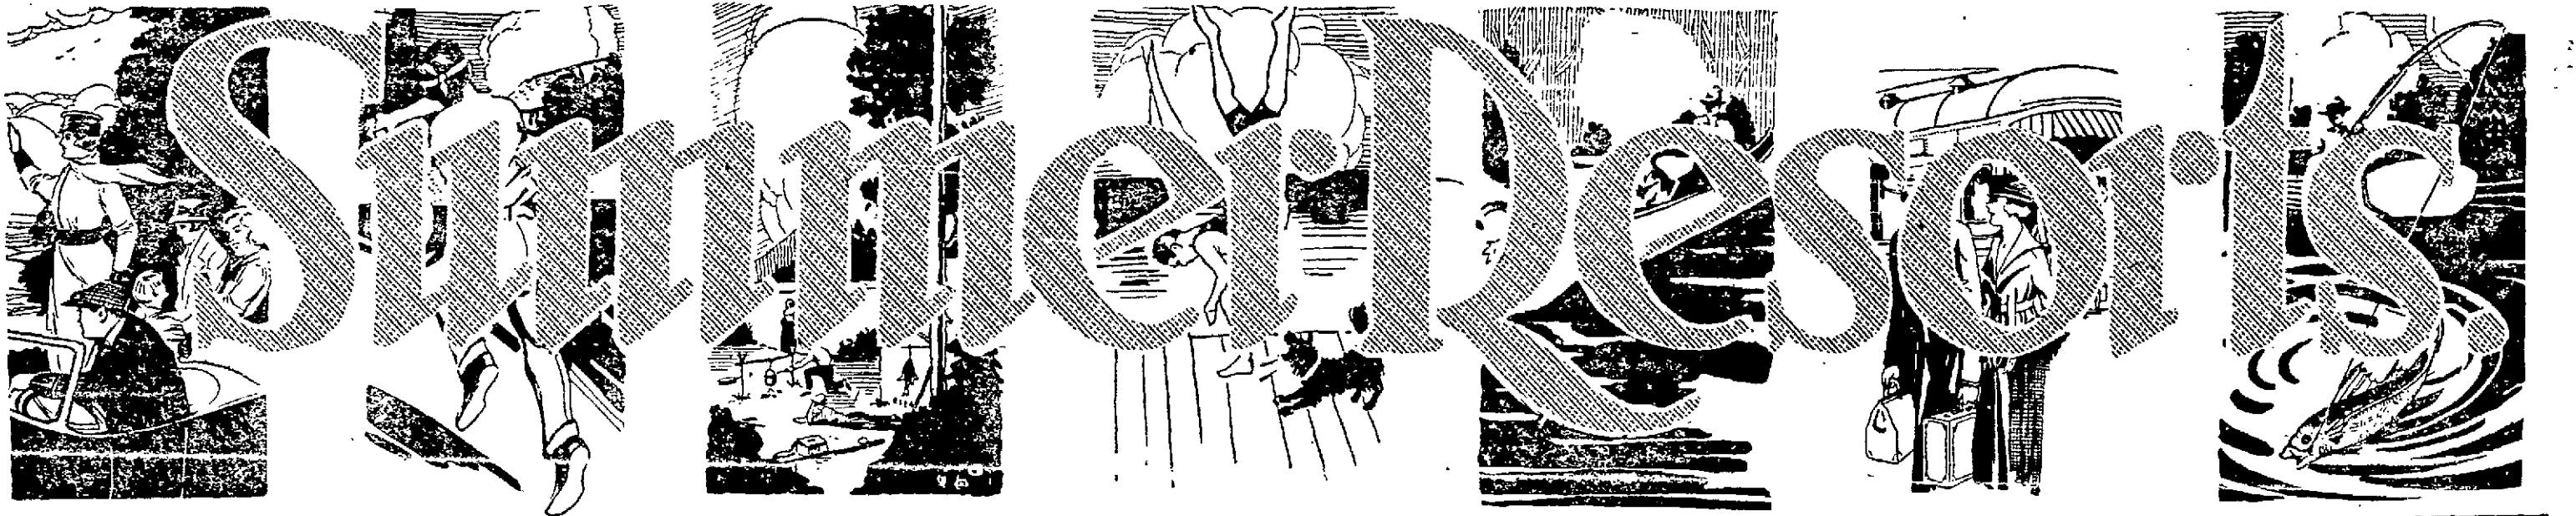

YOU need stunning Black Calf Oxfords. Spring fashion decrees them for dress, for afternoon wear and calling. You may also wish to heed Uncle Sam's decree—to save leather. DELAY PLANS FOR LEPER'S COTTAGE

While expressing a desire to do everything possible for the comfort of the leper colony at the county hospital, the supervisors today referred back to Architect H. H. Meyers a set of plans calling for a \$15,000 cottage proposed to be built for their home.

Supervisor W. J. Hamilton made the objection that in view of the fact that the United States Government is preparing plans for a great institution in which to take care of the lepers of the country, it should not be necessary for Alameda county to make so great an expenditure for the few sufferers here.

The architect was instructed to prepare more inexpensive plans.

There are seven people in the leper colony, four children and three adults, women. Supervisor Hamilton and a committee of women have been working to provide the unfortunates with every comfort that could be obtained.

CARPENTERS ELECT.
RICHMOND, June 13. — At the meeting of the Carpenters' Union last night the following officers were elected for the ensuing term: President, Ed. Rolph; vice-president, W. Craig; recording secretary, C. F. Washburn; financial secretary, C. Goodwin; treasurer, R. Thompson; conductor, W. Campbell; warden, E. Murphy; trustee, R. Seaman.

BARBERS' UNION DANCE.
RICHMOND, June 13. — A dance for the Red Cross is to be given tonight by the Barbers' Union at Pythian Castle. In charge is a committee composed of M. H. Williams, Joe Sena and Ted Long.

ARMY OF ANTS ON OFFENSIVE IN BERKELEY

BERKELEY BUREAU.
BERKELEY, June 13. — Despite the fact that food administration laws were broken and valuable sugar made into poison, ants by the thousands continue to swarm in Berkeley homes.

No less than 300 complaints from householders have been received by the Berkeley health officials during the past week. W. A. Gregory is working overtime in an effort to eliminate the small pests but says that at present the army of invaders has the upper hand in the conflict for their extermination.

More than 2000 calls for assistance have been received by the city since the beginning of spring. These are being met as rapidly as possible, but owing to the fact that city finances prevent Gregory from having more than one assistant the work is progressing more or less slowly.

In view of the great influx of ants in Berkeley during the present year the city council at a meeting this week voted the sum of \$2750 to the health department, with which to carry on the work of extermination, the appropriation being \$550 more than that allotted last year. The voting of the money was opposed by Councilman C. M. Boynton, who declared that the direct expense of fighting the pests should be met by the householders individually.

Would Alter Time for Holding Roads

WASHINGTON, June 13. — The time within which the President may relinquish control of any railroad or transportation system would be extended from July 1 next to January 1, 1919, by a joint resolution introduced today by Chairman Sims of the House Interstate commerce committee.

HERE'S RULE ON WAY TO AID WAR

"Produce more. Consume less."

This was the war aid rule for the city man offered today at the Rotary Club luncheon by Professor H. B. Cochran, head of the state's farm adviser bureau and member of the University of California faculty, when he told of the University work in co-operation with the United States Department of Agriculture and the Food Administration to increase food production here.

California's quota of additional grain acreage was set at 40,000 acres by the nation, according to the University man. California farmers answered the appeal with 100,000 acres, he said.

"We are now working on our 'keep a pig' campaign," said the university man. "We are raising 10,000 more hogs this year on 20,000 farms, to help the army's food supply."

"It is done through the state farm bureau, which has a membership of 20,000 farmers, and is directly operated by the university and the Federal Government. When the call came to speed up wheat production the result was far over our expectations. California more than made good. The bureau has worked out five protection plans that have saved a quarter of a million in food."

"The city man can do his part, too—produce more, consume less. The city man can produce the essentials of war, and he is making good."

Private Jack Lingwood, late of the "Princess Pats," told of battle life at the west front. He was the speaker of the day at the Lions' Club luncheon.

Sun, Moon, Tide

CHANGE OF TIME.
Commencing Sunday, March 31, 1918, one hour will be added to the various times each day as the sun, moon, and tide move westward until the first Sunday in October, 1918. This is to conform with the new daylight law.

United States Coast and Geodetic Survey—Table shows times and heights of high and low water at Port Point, entrance to San Francisco Bay. For city four (Alameda street pier) add 25 minutes. For Oakland add 20 minutes. Standard time.

Thursday, June 13.
Sun rose 4:48. Sun sets 7:24.
Moon rose 10:49 p. m.
Moon's first quarter, June 16, at 5:02 p. m.
Full moon, June 24, at 2:38 a. m.

June 13 to June 19.

OAKS MAY BOOST VERNON TIGERS BACK INTO FLAG CHASE

PERCY AND FERDIE---Racing, Baseball, But Mostly Clerking

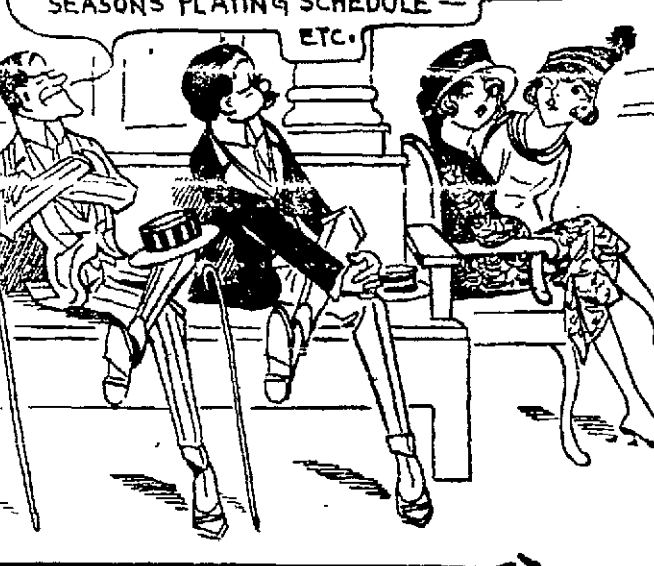

By H. A. MacGILL
Creator of the Hall-Boy

DOUBTLESS GENERAL CROWDER'S NEW ORDER "WAR WORK OR FIGHT" WILL AFFECT YOUR BUSINESS TOO OLD CHAP.

YES, BUT RACING IS BACK OF THE GOVERNMENT WITH THE SAME SPIRIT WHICH IS NOW DOMINANT THROUGHOUT THE COUNTRY AND AS ONE OF THE STEWARDS OF THE JOCKEY CLUB, I AM HEARTILY IN FAVOR OF UTILIZING EVERY OUNCE OF MAN POWER - ETC.

IT'S THE SAME WITH BASEBALL. AS I SAID TO PRESIDENT TENER OF THE NATIONAL LEAGUE "JOHN, THE BOYS OF MY CLUB ARE READY TO A MAN TO MEET ANY REQUIREMENTS THAT WILL HELP WIN THE WAR. IN ALL LIKELIHOOD WE'LL BE ALLOWED TO FINISH OUT THE SEASON'S PLAYING SCHEDULE - ETC.

NEXT DAY LUNCH HOUR-HOORAY! LET'S SEE FLAPPY ABOUT ARRANGING FOR A BALL GAME WITH THE EMPORIUM'S "RED STARS."

MR. O'FLAPJACKS? WHY HE WAS DRAFTED YESTERDAY AND WE'RE ATTENDING TO HIS - OH BABE, IF IT ISN'T THE SAME BOYS WE SAW AT THE BILDORF

BETWEEN RACING, BASEBALL AND CLERKING, YOU BOYS MUST BE KEPT PRETTY BUSY.

Speed Martin Is Bumped Again; Seals Also Take Beating to Fall Lower

With Bay Teams So Far Down in Rut as to Be Out of Race, Fans Are Out of Luck

By Carl E. Brazier

Will the Oaks boost the Vernon Tigers into the running close enough to make trouble for the Angels and Bees? That's what the fans are asking as a result of another Oak beating in the south. The 7-to-3 beating which the Oaks, guided by "Speed" Martin, took yesterday, recalls the fact that two weeks ago the Oaks were the victims when Salt Lake made a big enough cleanup to cinch up their lead for a few days. Then last week the Oaks were a big help to the Angels in getting up on top of the heap. And now this week it is beginning to look as though the Vernon Tigers might get right up in the running at the expense of the Oaks, while the Bees and Angels are fighting a cut-throat game in Utah this week.

OAKS NEED 11 STRAIGHT. As a result of the two Oakland defeats by Vernon and the Salt Lake victories over Los Angeles, there is a bigger gap between first and last places in the pennant race than there has ever been this season. Ten and a half games separate the Bees in first place from the Oaks in the cellar, and a little more than a straight win is all that would cinch up the 500 mark again. Also the second Seal defeat of the week, the hands of Sacramento and the Salt Lake victories over Los Angeles, has dropped Jerry Downs and his San Francisco back again close to the cellar, only two games ahead of the Oaks. But more important than that is the fact that Sacramento is tightening a hold on fourth place, now held by the Angels, and the fans around the bay cities are asked to support two teams that are so far down in the race as to be out of it.

Speed Martin was bumped yesterday— that's all there is to the story of the Vernon win. The Oaks played errorless ball behind Speed. To be sure they did not do much in the cellar of the league, but they allowed only six hits. But until the third inning when clean hitting against Martin netted the Tigers a run, the Oaks were in a bad way. After that five-run inning the Oaks did not figure. Ralph Crook scored on a triple, and the Oaks seemed to have gone when Martin took that first run bumping in the third inning. The Tigers had no over one run in the first and the Oaks had come right back with two in the second. But the Tigers did not do much in the second, and the Oaks had the five-run third inning.

WARREN HITS TWO. Clyde Warren connected for two hits on base hits. The first was a double on the mound and Crook went in at third, making one of the Oaks hits—a triple. Back Miller, Arlett and Murray each had three hits. Two of the eleven Tiger hits were triples and one was a double, and those extra base hits came along with punches which Martin was on the mound.

SEALS TAKE BEATING. Not long ago the Seals were taking his big inning bumping in the south, Ivo Kautheiser, the big Seal southpaw, was having similar troubles across the bay. That is, he was being hit hard by southpaw was the one big contributor to one of those weird affairs that the Seals have been having since the purchase of the Seals. Thirteen to four was the score and it might have been worse if the Coyotes had not worn themselves out in the second. The Seals were bunched up fourteen hits for seven runs. Kautheiser was bumped right from the mound in the third inning, and he was a tight old boy in the pinches and the Seals missed many a chance. In the first and fifth the Seals bunched up three hits, but in the third, seventh and ninth there were two Seals, each frame and no score. The Seals went out on the hill to cut short the disastrous inning for Kautheiser, but he did not cut it short. He was hit by a walk, a single, a double and a triple, and he kept hitting. In the third, seventh and ninth there were two Seals, each frame and no score. The Seals went out on the hill to cut short the disastrous inning for Kautheiser, but he did not cut it short. He was hit by a walk, a single, a double and a triple, and he kept hitting.

COYOTES COME FROM BEHIND. Jerry Downs came through with a double in the first inning after Hunter and Koerner hit singles. That double chased home two runs, but the lead was not enough. Sacramento put over one in the second on hits by Walter and Piniell. In the third frame the Seals went out in front, but they were caught. Rogers doubled and Willie and Walter followed with singles to count two runs. Two men were out in the fourth inning, before the Coyotes put a man on the pins. But that did not prevent them from putting over two runs on singles by Eldred, Rodgers and Willie with a couple of steals thrown in.

BEES WIN IN NINTH. In the ninth inning the Bees won over the Angels at the expense of the Oaks. The Bees came through with a hit in the eighth and an added more game to their hold on first place in the pennant chase. Jack Farmer came through with a hit in the ninth inning with men on second and third and the two runs that secured the Bees' win. The Angels had led 4 to 3 in the eighth, but the Bees came through with a hit in the ninth and the two runs that secured the Bees' win. The Angels had led 4 to 3 in the eighth, but the Bees came through with a hit in the ninth and the two runs that secured the Bees' win.

BEES WIN IN NINTH. In the ninth inning the Bees won over the Angels at the expense of the Oaks. The Bees came through with a hit in the eighth and an added more game to their hold on first place in the pennant chase. Jack Farmer came through with a hit in the ninth inning with men on second and third and the two runs that secured the Bees' win. The Angels had led 4 to 3 in the eighth, but the Bees came through with a hit in the ninth and the two runs that secured the Bees' win.

Reports Show That Fishing Is Good In Many Places

The following fishing reports issued by the Southern Pacific indicate that fishing at a number of places is good. The report follows:

SACRAMENTO REGION SEA FISHING. Santa Cruz, Capitola, Monterey, Pacific Grove—Salmon fishing on Monterey bay continues good. Boats and tackle for lake run fishermen are in demand.

UPPER SACRAMENTO RIVER AND NORTH. Dunsmuir—Fishing conditions in Sacramento river improving. Water clear and warm. Trout rising to fly. Indications point to good sport at various river points.

McCloud and Bartle—Good catches were made in the McCloud river past few days. Fishing for fly, gray hake and yellow body trout a good lure.

WESTERN SLOPE OF SIERRA. Cisco—Water full in American and Yuba rivers. A few small catches made during week with worm and salmon eggs. No fishing yet.

Lake Tahoe—Good fishing May 30. Several good catches in Lake Tahoe are reported, including one eleven-pounder. Sumner Hills—Good fishing all day. Independence, several limit catches being made.

Limit catches in Truckee river reported from Floriston. Best success with grub and worm. Flycatchers using Red Spinner, Red Ant, Hare's Ear and Sage Hen.

Base Lake (Madara County)—Weather conditions now excellent. Limits of black fly fishing in lake. Fly fishing in streams improving.

Wawona—Fishing in South Fork of Merced river and streams in vicinity reported good. Several limit catches.

EASTERN SLOPE OF SIERRA. Keatsville, Zerkow—Weather conditions good and fishing reported good. Several limit catches.

San Diego High Is Beaten by San Diego for Baseball Title

SAN DIEGO, Cal., June 13.—San Diego High won the school baseball championship of California by defeating Sacramento High 3 to 0 in the first and sixth innings. The score was 3 to 0.

Two Fight Champions in War Hospital Show

NEW YORK, June 13.—Two boxing champions will appear in a big carnival to be staged at Madison Square Garden June 20, the War Hospital. The event will be a double fight between the two champions.

Ratto Will Try His Hand at Putting Merchants in Race

Central League Tailenders to Be Strengthened—Schaller May Play On Shipyard Team

By EDDIE MURPHY.

Lawrence Ratto will again have full management of the Oakland Commission Merchants and will resume charge of them Sunday when they will travel to Vallejo to meet the Mare Island Marines. There have been rumors floating around for a few days that Jerry Lawlor, but not yesterday was this report confirmed by Ratto. Ratto did not give any reason for wanting to take over the reins of the Oakland Commission Merchants team, outside of to say that he will have full charge of the team now on duty at the shipyard.

The Chevrolet Automobile Company will again be represented in the field by a fast ball club. Last summer the auto plant had one of the best young ball players in the Central League, and he is being made to build up another one. A large number of players have been tried in the past few weeks, and it is believed that the lineup which will stack against the Merchants next Sunday will be the one which will make up the regular Chevrolet team.

The Y. M. C. A. team won the baseball amateur championship of Sacramento by defeating the College Red Sox by a score of 10 to 3. Fred Murphy is manager of the Y. M. C. A. team and believes that he has a fast amateur team on his hands.

Bush baseball is sure on a solid footing at Stockton. Sunday saw twelve teams in the Central League, and some good baseball was put over for the fans who turned out at the different city lots in good numbers.

The 36th Infantry team of Camp Lewis, of which a number of our local players are members, defeated the Machine Gun Battalion in an exciting game by a score of 7 to 5. Carl Jones played shortstop for the 36th and got three hits, one going for a triple.

Babe Ruth, the hard hitting Boston Red Sox player, has nothing on a boy named Sawdust. The Sawdust team, a young team of the Battalion league at American Lake. In a game in which Sawdust was the hero, he hit a home run of 11 to 10. Fawke hit home runs and a single. K company is playing under the name of the Oaks, as the players are all from the Oaks.

The F. E. Booth Company team of Centerville was following as the leading team from the fast Elcho Club team of Richmond, score 1 to 0, two hits were scored by the Elcho team.

The Shipbuilders' League is making preparations for the staging of the first game of the Oakland Coast League on Saturday afternoon at 2 o'clock. The game will be played at the shipyard grounds.

RIC TEMPLETON GETS Army Commission

SAN JOSE, Cal., June 13.—"Ric" Templeton, famous Stanford track athlete and rugby star, has been commissioned a second lieutenant. In the national army according to word received at Camp Fremont today. Templeton has been attending an officers' training school. He is captain of the 1917 track team at Stanford University.

EIGHT FOR SAN LEANDRO JES. The San Leandro Jesuits' team, who were the Highland Juniors, the San Leandro team tried hard to shut out the Highlanders, but after a long battle they were defeated by a score of 10 to 3.

JOE STECHER WINS. Omaha, Neb., June 13.—Joe Stecher won the championship of the Central California League, but the chance of him being named as the champion of the league was lost when he was defeated by Walter Agnew, who was mentioned for a job in the central California league for some time.

Lee Marge was a failure in the American league last year with St. Louis, so he was shipped to Cincinnati. Dave Shean was a failure in the National league with Cincinnati, so he was shipped to the Red Sox. Now both are making good.

Marines Fall Before Duffy Lewis' Bunch

Sailors Win First Game of Big Mare Island Series by a 5-to-2 Score

Duffy Lewis is full of hope today. Things look bright for his Naval Training Station baseball team that has been grooming just to beat the Marines, for after a 5 to 2 win for the sailors yesterday, Duffy cannot figure where the Marines figure to do much damage in the big series that has Mare Island taking baseball from under the Marines' feet.

The Marines made more than one hit off Hamilton, but they were not enough to make things harder for the sailors.

Lewis was the hero of the game with a double and three singles in four trips to the plate. Rod Murphy hit once for the Marines and none of the Marines made more than one hit off Hamilton. Today Elliott connected for two safeties for the sailors and Hamilton helped win his own game from his big league style with a three-bagger. The score:

Some Net Gains Are Made Ships and Sails Move Slowly

NEW YORK, June 13.—Subject to occasional recessions, today's stock market registered net gains of one to three points, rails and shipplings sagging.

Industrials, equipments, coppers and special war issues registered gains of one to two points at the opening. United States Steel led the advance on further free buying, together with Bethlehem, Crucible and Midvale Steels. Shipplings were little more than firm and tobacco moved irregularly. Sumatra losing three points, while United Cigars gained a point. Other strong features included Reading, Union Pacific and oils.

Prices reacted very generally before the end of the first hour, the French war bulletin causing hasty profit-taking by cautious traders. A moderate rally occurred at mid-day on renewed buying of investment rails. Paris 6s continued to yield.

Secure specialties were brought forward in the afternoon, particularly low-priced metals at one to three-point advances. Distillers, leather and cotton oil also became active and leaders rallied.

A brisk rally in steels and tobacco and further gains in oils and motors forced prices to highest levels in the active final hour. The closing was strong.

Movement of prices at different periods of the day is indicated in the following:

OPENING. There was vigorous buying of the steel stock at the opening with the dealings in Steel common on a large scale. That stock advanced 1/4 to 1/2 point, with the other steel stocks making gains of one point or more. Bethlehem Steel B rose 1 1/2 to 5/8. Midvale Steel became prominent, buying orders coming from various sources and putting the price up 1/4 to 1/2. Baldwin rose one point to 5 3/4 and Crucible 1 1/2 to 6 1/4.

Reading continued persistent demand, advancing one point to 51. United Cigar Stores advanced 1 1/4 to 37 1/2. American Sumatra tobacco, which was in supply, was yesterday was exceptionally weak, dropping over three points to below 140. American Hide and Leather preferred advanced 1 1/2 to 7 3/4. Central Leather rose 1 1/2 to 67.

Price recessions occurred at the end of the first fifteen minutes, but the market tone continued strong.

CLOSING. The market closed unchanged. Government bonds were strong; railway bonds, however, were weaker.

In the final trading Steel common advanced over one point in the final trading. Steel B, Baldwin and Midvale 5s, Bethlehem Steel B, and Midvale 5s, Distillers sold up to 6 1/4 and was finally 6 1/4. Tobacco Products closed at 6 1/4.

Sumatra tobacco, which was in supply, was yesterday was exceptionally weak, dropping over three points to below 140. American Hide and Leather preferred advanced 1 1/2 to 7 3/4. Central Leather rose 1 1/2 to 67.

Price recessions occurred at the end of the first fifteen minutes, but the market tone continued strong.

FREAK STORM HAS WEATHER MEN GUESSING

Thunderstorms, fog, showers and peculiar weather throughout the state are today puzzling weather authorities, every new vagary of the intermittent storms proving a new enigma to science. San Francisco reports a thunderstorm, but Oakland does not notice it. On Mt. Tamalpais the storm was pronounced, and in Santa Rosa an electrical storm raged half of yesterday, the lightning struck and set fire to a house, and showers touched various parts of California like a wet patchwork yesterday.

San Francisco had a shower yesterday, following several thunderclaps. Eastern visitors insisted this presaged a heavy storm, but it did not materialize. Instead there was a short shower of unusually heavy drops, after which the weather cleared. Oakland was cloudy at the time, the clouds giving, however, more the appearance of a high fog.

At the same time the worst thunderstorm the town ever saw hit Santa Rosa. Thunder rolled all morning, accompanied by vivid lightning. The residence of Mrs. Sarah Truitt, 417 King street, was struck and destroyed. No one was injured. Near San Rafael hay was damaged. Electricians hazard a theory that the San Francisco storm was an electrical disturbance caused by induction from the Santa Rosa storm.

Portland experienced a severe thunderstorm yesterday. In Central Oregon Walter Richards, a 12 year old boy, was struck by lightning and killed. In Lane county, Oregon, Ernest Hibbard, donkey engine driver, was struck, and probably will die. Power poles were felled and much damage done. At Moss Beach a hail storm was reported yesterday.

Oakland cleared yesterday afternoon but clouded again during the night and today dawned with a heavy bank of fog and clouds. Weather experts are at a loss today what to predict while the freak atmospheric conditions last, but finally offered "fair weather, early clouds and fogs."

Oakland Moose to Hold Flag Day Rally

Oakland Lodge of Moose will hold impressive Flag Day celebration at the lodge rooms, Twelfth and Clay streets, tomorrow evening, with Secretary W. J. Hamilton acting as master of ceremonies. Judge George Samuels will make the principal address. Samuels is the author of the flag ceremonial, which has been adopted by Oakland Lodge of Moose and Moose lodges throughout the country.

Another speaker of the evening will be Supreme Coder Frank J. Mahan, who will tell of the Moose connection to the French trenches. Another feature of the evening will be the playing of the war song "Drive for the Flag" by the Alpha Kappa Lambda fraternity.

Edwin Leonard Jr. Is Made Sergeant

Edwin T. Leonard of Oakland, assistant custodian of the post office in San Francisco, has received word that his son, Edwin Leonard Jr., has been made a sergeant at Camp Lewis. Young Leonard was attending the University of California when drafted. He is a member of the Alpha Kappa Lambda fraternity.

Swede Patriots to Give Musical to Aid Red Cross

MISS ESTHER HJELTE

League of Alameda County Arranges Program for the Auditorium Tonight

The Swedish American Patriotic League of Alameda county, which is comprised of delegates from all the social, fraternal, political and religious organizations, which represents 5000 people in this county, are to give a musical and literary program at the Oakland Municipal auditorium this evening at 8:15 p. m., the entire proceeds to go to the American Red Cross. At the present time there are between two and three hundred young men of Swedish origin now enlisted with the army and navy, fighting for the "colors," many of them somewhere in France.

The Patriotic League was very active in the last Liberty Loan and Red Cross drives, and as a result of their efforts over 90 per cent of the Swedish population of this county subscribed to both of these drives.

In addition to the Third United States Artillery band from Fort Winfield Scott the committee have been fortunate in obtaining for the program our best professional local talent.

The committee in charge of arrangements includes N. G. Lindgren, general chairman, E. C. Johnson, chairman of arrangements; C. T. Peterson, J. Almqvist and Commissioner Frederick Soderberg, entertainment committee; Mrs. L. A. Anderson and Mrs. J. Isakson, musical committee; Mrs. A. Sutherland, C. T. Peterson and E. C. Johnson; program com-

DRIVE ON IDLE CLASSES WILL START JULY 1

Alameda county and its included cities will send 146 men to Vancouver barracks, Washington, beginning June 15, as the local contribution to the state allotment of 2,355 limited service men, ordered under special call from Adjutant General J. J. Borree. Alameda county draft boards will send 25 men, Oakland local boards 82, and Berkeley 39.

The "work or fight" instructions, designed to induct into service idlers of all classes, have been received by local draft boards and all is ready for the drive against the "non-useful" occupation class, which begins July 1. Every man, of draft age, who is idle or engaged in a non-productive occupation, will be summoned before the boards. They will have to give the boards good explanations for their idleness or non-productive qualities, or be inducted into productive occupations or direct military service.

Because of the difficulty in getting at many of the cases of this nature, citizens are asked to constitute themselves into committees to report to boards cases of other persons engaged in non-productive work or who are not working at all.

The inductive induction of young draft men into army and other services, has run afoul of the shipyard condition where scores of men of draft age, are engaged in various activities. In many cases, according to draft officials, such positions have been secured to avoid draft service. While the government does not intend to interfere with legitimate workers, it does intend to go after evaders who have taken the shipyards as a mask for their desire to avoid service. Shipbuilding companies have promised assistance.

The government's classification of persons declared to have non-useful occupations follows:

Persons engaged in the serving of food and drink, or either, in public places, including hotels and social clubs.

Passenger-elevator operators and attendants, and doormen, footmen, carriage operators and other attendants in clubs, hotels, stores, apartment houses, office buildings and bathhouses.

Persons, including ushers and other attendants, engaged and occupied in connection with games, sports, and amusements, excepting actual performers in legitimate concerts, operas or theatrical performances.

Persons employed in domestic service.

Sales clerks and other clerks employed in stores and other mercantile establishments.

The recent registration has hit the retail confectioners hard. Many of their employees are of the younger draft age. At a meeting yesterday the confectioners decided to shut shop entirely if necessary to aid the government. This decision followed announcement that the government classed soda dispensing as a non-useful occupation. Enforcement of this, it is declared, will cripple the bulk of confectioners.

Following is the program:

Twenty-eighth Coast Artillery Band.
Piano Solo—Imptomptin, F sharp minor; Scherza, sharp.....Chopin
Miss Esther Hjelte.
Soprano Solo—Villi D'Arte, Villi D'Amore (from La Tosca).....Fuccini

Trinity Episcopal church picnic, Richmond.

Poetry Section of Writer's Club Meets

The poetry section of the California Writers' Club, under the direction of Mrs. Anna K. Sperry, gave its annual entertainment Monday night before a large audience in the ballroom of Hotel Claremont. Aside from the efforts of the section members, the success of the evening was in great measure due to the generous contributions of John B. Jordan, C. W. Carruth, Mrs. Grace Z. McKee, Madame Carrol, Mrs. W. E. Beardsley and her Spanish pupils, Miss Francine Adams, Master Wheaton Adams, Miss Elma Elder and Miss Pearl Ripley.

Called to Washington.
Miss Kathryn E. Thomas, University of California graduate and daughter of Dr. Hayward G. Thomas of this city, has been appointed to a position on one of the War Boards in Washington. She is doing statistical work. Miss Thomas received last week her degree of M. A. from Columbia University.

Going Some! But Where?

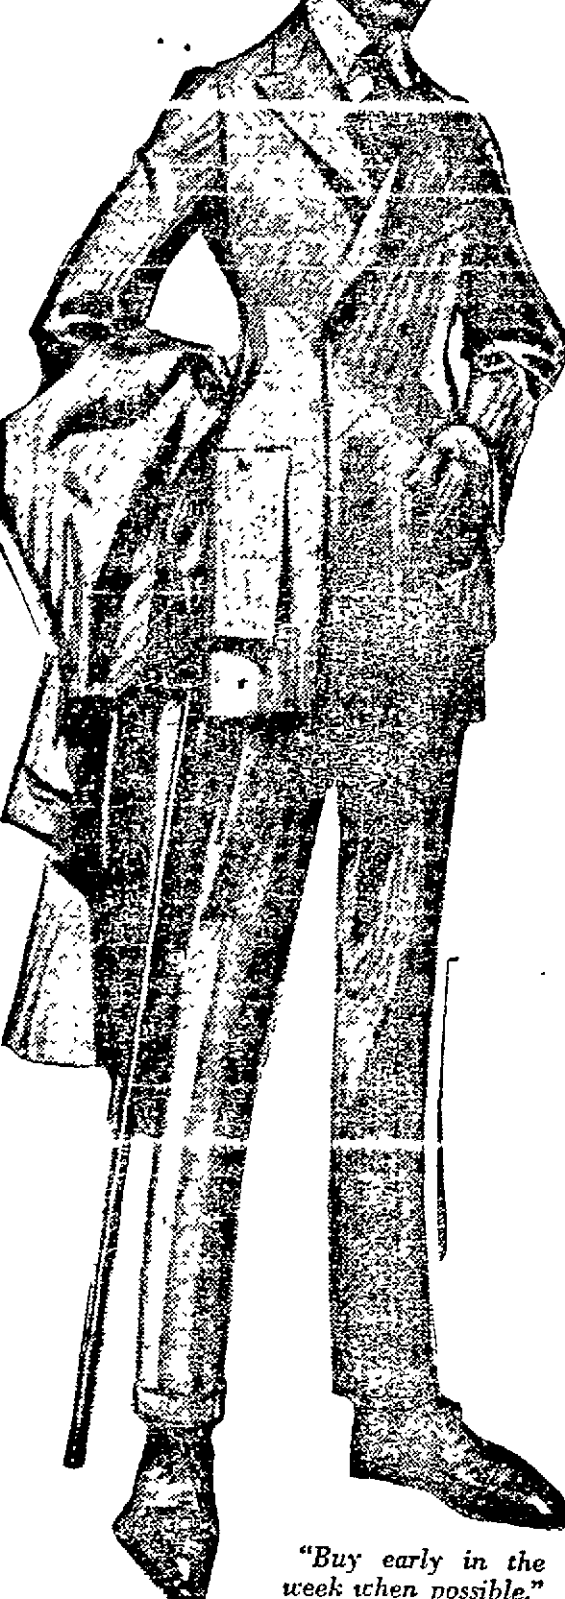

CLANG! Clang! Fire! Why —why do they race around a ring?

Why—when the flames are spelling DISASTER a few blocks away? Listen. This foolhardy, nonsensical, preposterous performance—were it to actually occur—would not be one iota more unreasonable than trying to buy clothing economically where you must pay for HIGH RENT AND FINE FIXTURES. Don't wander around in a circle—but make a DEAD BEE LINE for a \$10 saving.

Trade Upstairs—Save \$10

Read the facts! Read our sane, sensible plan of saving, saving, SAVING—clearly set forth at the top of this advertisement. A NEW line of Foreman & Clark clothing, this. A NEW \$10 saving for wise Oakland men. Mind you, this is NOT an increase in price on our far-famed \$15 line, but an ADDITION of the finest clothing made. Exclusive, custom-tailored quality, GUARANTEED \$30 CLOTHING FOR \$20.

A Foreman & Clark \$20 Suit Drawn From Life

"Buy early in the week when possible."

\$20

Guaranteed \$25 Clothing for \$15

Upstairs—at Foreman & Clark's—you can see and prove the full \$10 of extra quality in clear, piercing DAYLIGHT. No camouflage here! And likewise, NO PRICE-BOUNCING. No inflated prices IN SEASON, but STANDARD VALUES ALWAYS that far, far outstrip the very lowest of July or January "clearance sales."

Buy your new suit UPSTAIRS—at Foreman & Clark's, Twelfth and Washington streets—and KEEP THAT EXTRA \$10. Guaranteed \$25 clothing for \$15.

\$15

No Charge for Alterations—No Charge for Deliveries

STORE OPEN SATURDAY NIGHT TILL 10 O'CLOCK

A Chain of Upstairs Stores from Coast to Coast

Twelfth & Washington Sts. San Francisco Store—Stockton & O'Farrell Sts.

Gude's Pepto-Mangan

"The Red Blood Builder" makes your blood a rich, pure, red stream of nourishment which carries new vigor and energy to all parts of your body.

Pepto-Mangan is made only by M. J. BREITENBACH CO., New York Manufacturing Chemists Sold by druggists everywhere

ALLEN'S FOOT-EASE The Antiseptic Powder. Shake it into your Shoes, Sprinkle it in your Foot-Bath.

It makes Standing on the feet easy, Walking a delight. For all men drilling for Military Service the frequent use of Allen's Foot-Ease increases their efficiency and insures needed physical comfort.

The Plattsburg Camp Manual Advises Men in Training to shake a little Foot-Ease in their shoes each morning.

Do this and walk all day in comfort. It takes the friction from the shoe and freshens the feet. At night, sprinkle it in the foot-bath, and soak and rub the feet. For over 25 years Allen's Foot-Ease has been the STANDARD remedy for hot, swollen, smarting, tender, tired, perspiring, aching feet, corns, bunions, blisters and callouses. Used by the American, British and French troops in Europe. One war relief committee reports that of all the things sent out in their Comfort Bags or "Kits," Allen's Foot-Ease received the most praise from the soldiers and men of the navy. Why not order a dozen or more 25c. boxes to-day from your Druggist or Department Store to mail to your friends in training camps and in the army and navy. Sold everywhere. Sample FREE by mail. Address, ALLEN S. OLMSTER, LE ROY, N. Y.
